Where The River Runs Deep Joy J. Jackson, 1999-03-01 Joy J Jackson s *Where the River Runs Deep* tells two stories both significant and both fascinating It is a biography of the author s father Oliver Jackson who spent virtually his entire life on or near the Mississippi River And it is a history of the river itself and the many changes that have transformed it in the twentieth century Born in an oysterman s camp in south Louisiana only a few miles from the Gulf of Mexico and raised in an orphanage in New Orleans Oliver Jackson 1896 1985 grew up to become a pilot boat crew member a merchant seaman a tugboat man and ultimately a Mississippi River pilot the profession to which he had always aspired Drawing extensively on oral history including a series of audiotapes her father recorded before his death Jackson presents a detailed social history not only of her father and his forebears but of a way of life now past She vividly portrays village life in once thriving but now vanished river communities such as Port Eads and Burrwood in the delta below New Orleans and in such working class areas of the city as the Irish Channel And she provides detailed descriptions of the early days of riverboat piloting between New Orleans and Baton Rouge and of tugboat work in the New Orleans harbor Throughout she evokes the special passion and respect that pilots have always had for their work and the river Woven into Jackson s narrative of her father s life and career is a history of the profound changes in life and commerce on the Mississippi River since the turn of the century During Oliver Jackson s lifetime cotton gave way to petroleum as the major product transported on the lower Mississippi while steamboats faded away and were replaced by towboats with their long lines of barges After mid century many of the plantations and rural homesteads that had lined the banks of the river since the eighteenth and nineteenth centuries were crowded by the increasing presence of petrochemical plants Jackson also writes about such calamitous events as the hurricane of 1915 and

the great flood of 1927 and she describes the menace of German submarines at the mouth of the Mississippi during America's early months in World War II Where the River Runs Deep is a story of river life unlike any other It will appeal to students of regional history and family history as well as to anyone fascinated by the lore of the Mississippi **Magnolia Mound** Lois Elmers Bannon, Martha Yancey Carr, Gwen Anders Edwards, 1999-05-31 The story behind the eighteenth century French Creole cottage now on the National Register of Historic Places with illustrations included Magnolia Mound situated on a ridge overlooking the meandering Mississippi River stands as Baton Rouge's most notable eighteenth century structure This volume researched and written under the direction of the Magnolia Mound Board of Trustees traces the origin and development of this splendid Creole raised cottage providing an intimate look at plantation life and the economic system that supported it Beginning with the original land grant of 1786 the authors document both the social and the architectural history of the celebrated structure from its origin as a modest settler's house and farm to its later grandeur as a distinctive home situated within an extensive working plantation The book also includes an account of the successful struggle by the Foundation for Historical Louisiana which keeps the building and grounds open to the public to save the house from destruction in 1960 Winner Certificate of Commendation from the American Association for State and Local History

Multisensory Landscapes Lara Koegst,Olaf Kühne,Dennis Edler,2023-06-21 This book provides a broad view on multisensory landscapes from multiple perspectives It includes theoretical perspectives as well as case studies Different theoretical perspectives on landscape emerging from research in the last decades also require a differentiated approach to landscape phenomena going beyond the visual For example a social constructivist approach to the social world foregrounds the processes of negotiating social realities This is not limited to visual aspects and is not based on a clear physical measurability with an accompanying purely quantitative recording A phenomenological approach for example places the synesthetic experience of landscape at the core of interest This approach to the topic of multisensory via landscape is obvious for several reasons Firstly landscape is created from a constructivist perspective through the synthesis of sensory impressions on the basis of social patterns of interpretation and evaluation Secondly communication about landscape is also accessible to people who do not have any expertlike special knowledge in this regard Thirdly landscape as a changing concept is not only a concept of landscape but also of landscape itself Fourthly landscape as a changeable concept is particularly suitable for conceptually framing the highly fleeting non visual stimuli
