Titanic and the Californian Thomas B Williams,Rob Kamps,2011-08-31 Ninety five years ago as the Titanic slowly sank a mystery ship was seen as she slipped below the waves Thinking it would be their salvation rockets were fired from Titanic to attract the mystery ship but to no avail With 1 500 souls on board Titanic foundered but what of the mystery ship At the subsequent inquiries in both the USA and UK Captain Stanley Lord and his vessel the Californian were accused of ignoring Titanic s plight This is the story of the Californian and of her actions that night and Thomas Williams and Rob Kamps prove that she could not have been the mystery ship that promised hope and salvation for a fleeting time to those on board the sinking Titanic **The Unsinkable Titanic** Allen Gibson,2012-02-28 Delving deep into Titanic s legacy Allen Gibson presents a comprehensive history with a refreshing argument that Titanic represented a considerable achievement in maritime architecture He determines the true causes of the disaster telling the story of the unsinkable ship against a backdrop of a tumultuous and rapidly emerging technological world The book exposes the true interests of the people involved in the operation regulation and investigation into Titanic and lays bare the technology so dramatically destroyed Juxtaposing the duelling worlds of economics and safety this study rationalises the mindset that wilfully dispatched the world s largest ship out to sea with a deficient supply of lifeboats Subjectivism and Interpretative Methodology in Theory and Practice Fu-Lai Tony Yu,2020-02-15 Contemporary social science in general and economics in particular are dominated by the method of logical positivism in the British tradition In contrast to the British philosophy Subjectivism and Interpretative

Methodology in Theory and Practice adopts subjectivism and interpretation methodology to understand human behavior and social action Unlike positivism this subjectivist approach with its root in German idealism takes human experience as the sole foundation of factual knowledge All objective facts have to be interpreted and evaluated by human minds In this approach experience knowledge expectation plans errors and revision of plans are key elements Specifically this volume uses the subjectivist approach originated in Max Weber s interpretation method Alfred Schutz s phenomenology and Peter Berger and Thomas Luckmann s sociology of knowledge to understand economic and social phenomena The method brings human agency back into the forefront of analysis adding new insights not only in economics and management but also in sociology politics psychology and organizational behavior

The Titanic Eugene L. Titanic and the Mystery Ship Senan Molony, 2011-08-31 As the Titanic was swallowed by a freezing sea over 800 miles from the nearest land her 2 200 passengers and crew attempted desperately to avert tragedy Lifeboats were lowered and constant SOS signals sent but most realised they would require a miracle to avoid their doom And then it came Approaching over the horizon was a ship coming ever closer and then stopping within five or six miles of the Titanic The joy on board the sinking ship was unimaginable the crew even reassured passengers that rescue was imminent Agonisingly however the vessel did not come to the rescue despite rockers of appeal but gradually turned and moved away abandoning over 1 500 people to their fate The search for the Mystery Ship began immediately and both Britain and the USA accused a ship called the Californian of deserting the Titanic in her hour of need But was the Mystery Ship the Californian For the first time this book explores the totality of evidence with the discovery of the Titanic s actual wreck site in 1985 allowing crucial insights not available during official investigations seventy three years earlier Combining a penetrating argument with an extensive collection of archive photographs and materials this book aims to find clear answers to the many riddles of the Titanic s Mystery Ship

Titanic: The Myths and Legacy of a Disaster Roger Cartwright, June Cartwright, 2011-11-30 On 15 April 2012 100 years will have passed since the Royal Mail Steamer Titanic hit an iceberg and foundered in the North Atlantic with the loss of 1 503 lives Had the disaster not occurred what is now the best known ship in the world would have lost the title of the largest liner within just two years She was certainly not the fastest passenger ship of the time and can be considered a technological

throwback yet Titanic captures the imagination like no other This book seeks to explore the myths and the truth about Titanic and explores the legacy that has made the ship so well known Why was she built Who really owned her Why was nobody ever proved negligent How has today's transportation been made safer by Titanic Have we really learned the right lessons Perhaps not Since 1912 there have been worse disasters yet none has replaced Titanic in the popular consciousness Her legacy exists in procedures building regulation navigational practice statues poems novels movies and even a musical This book explores why

Maritime Casualties Tuuli Messer-Bookman, 2015-08-28 Since the Titanic disaster of 1912 the horrors of major maritime casualties have prompted international conventions and domestic legislation but the link between events and outcomes which are often separated by many years is rarely understood by those working in the maritime industry This book the only comprehensive guide to this link sets forth the major casualties of the last hundred years and explains resulting regulatory changes Taking a macro level view it describes the trends and reactions across decades and how over time focus has shifted from equipment failures to people and their behaviors as the primary cause of maritime casualties Timely and thorough it also explores the alarming increase in the criminalization of maritime accidents especially the relatively recent reclassification of pollution incidents as environmental crimes This book offers broad insight to the history laws and conventions that regulate worldwide commercial maritime activity

Four Thousand Lives Lost Alastair Walker, 2012-03-31 Over four years four ships were lost under different circumstances and 4 000 lives with them but one thing linked them all it was John Charles Bigham Lord Mersey who was appointed to head the inquiries into each disaster Mersey is often referred to as a company man or a government stooge But is this the whole truth Everyone has heard of Titanic and Lusitania but more passengers died when the Empress of Ireland sank in May 1914 That inquiry turned into a head to head between an American lawyer and a British one Did Mersey let the right man win Was he fair to Captain Lord of the Californian when he blamed him for the loss of so many lives on Titanic The U Boat that sank the Falaba with the loss of 104 lives behaved very differently to the one that torpedoed the Lusitania just six weeks later Did Mersey reflect that in his findings or was he more interested in propaganda than truth

Icebergs Grant R. Bigg, 2015-11-26 Icebergs are a prime example of an environmental phenomenon that brings together multiple disciplines in the polar sciences from the physics of calving and melting to the geology of their solid deposits and sea floor interactions Icebergs are also increasingly seen to play key roles in past and present climate change This book gives a comprehensive multidisciplinary view of icebergs and their interaction with the Earth system from the physical and biological interaction with the ocean and climate to how iceberg detritus informs us about past Earth history Societal and cultural aspects of icebergs are also examined in terms of the risks and opportunities posed by icebergs in the modern world as well as how these might develop in the future With

extensive illustrations and key links to online resources Icebergs is a valuable reference for academic researchers and graduate students studying oceanography cryospheric science climatology and environmental science Titanic: Victims and Villains Senan Molony,2011-08-31 Why are there so many heroes attached to the sinking of the Titanic Why do we accord impossible glory to the miserable misbegotten drowning of the equivalent of a small town Who were the real heroes and how were they overlooked What did society and the press do with its overriding need for blame The creation of heroes where they did not exist offers us insights in throwing off the blanket of boasting a century later that bring history's most famous shipwreck back into sharper focus We see into the nature of prejudice social values and the overriding political and national considerations of the time This book also looks at the offered sacrificial victims of the time in particular the character of Captain Stanley Lord of the Californian the man charged with abandoning 1 500 people to their fate Backed up with new photographic archives and bolstered by a series of contemporary extracts to support its arguments this is Titanic history presented in an entirely new authentic light The Titanic Conspiracy Robin Gardiner,Dan Van der Vat,1997 More than a decade after the Titanic was located in the North Atlantic here is an intriguing reassessment of one of the greatest legends of the 20th century This book sheds new light on key evidence from the official inquiries and transcripts of radio transmissions and offers new insight gained from examining relics recovered from the ship and from interviews with the survivors photos

Come Quick, Danger Stephan Dubreuil,Canadian Coast Guard,1998 This book attempts to capture the nature and history of marine radio communications in Canada based largely on first person accounts beginning from Marconi's invention and the establishment of the first commercial marine radio station in North America The role of marine radio in protecting ships and their crews is noted throughout including the participation of Canadian radio operators in such disasters as the sinking of the Titanic and the Empress of Ireland Other topics covered include the establishment of marine radio networks transatlantic communications Coast Guard radio marine traffic services and radio navigation **Come Hell and High Water** Jean Hood,2007-02-05 Readable entertaining mini histories of extraordinary shipwrecks some famous Titanic Kursk some little known
