Warwickshire and Stratford challenging political and social structures and collective memory in the region The resistance of Edward Arden often claimed as kin to Mary Arden Shakespeare s mother and his friends and family culminated in his execution on false treason charges in 1583 By then the Shakespeare family also had direct experience with the London government s power in 1569 Exchequer informers backed by influential politicians at Court accused John Shakespeare William s father of illegal wool dealing and usury Despite previous claims that John had resolved these charges by 1572 the book s new sources show the Exchequer s continuing demands forced his withdrawal from Stratford politics by 1577 and undermined his business career in the early 1580s when young William first gained an understanding of his father s troubles At the same time Edward Arden s condemnation by the Elizabethan regime proved problematic for the Shakespeares friends and neighbours the Quineys who were accused of maintaining financial connections to the traitorous Ardens though Stratford people were convinced of their innocence This complicated community directly impacted Shakespeare s own perspective on local and national politics and social structures connecting his early experiences in Stratford and Warwickshire with many of the themes later found in his plays
