**Historical Dictionary of the Spanish Civil War** Francisco J. Romero Salvadó, 2013-03-14 The tragedy that devastated Spain for 33 months from July 1936 to April 1939 was first and foremost a brutal fratricidal conflict the product of the fatal clash between diametrically opposed views of Spain and an attempt to settle crucial issues which had

divided Spaniards for generations agrarian reform recognition of the identity of the historical regions Catalonia the Basque Country and the roles of the Catholic Church and the armed forces in a modern state Being a war between Spaniards it was particularly brutal but it was also part of the broader move toward war in Europe and thus sucked in many volunteers from abroad And it left a deep imprint since General Francisco Franco remained at the helm of the country until his death in 1975 The Historical Dictionary of the Spanish Civil war covers the history of the war first through a long chronology which highlights the major steps from the incubation to the conclusion The overall situation is summed up in the introduction Then the dictionary section fleshes it out with over 600 entries on persons places events institutions battles and campaigns More reading can be found in an extensive bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the Spanish Civil War Combined Statement of the Receipts and Expenditures, Balances, Etc., of the United States United States Department of the Treasury. Division of Bookkeeping and Warrants,1941 **Global Great Depression and the Coming of World War II** John E. Moser,2015-11-17 The Global Great Depression and the Coming of World War II demonstrates the ways in which the economic crisis of the late 1920s and early 1930s helped to cause and shape the course of the Second World War Historian John E Moser points to the essential uniformity in the way in which the world s industrialized and industrializing nations responded to the challenge of the Depression Among these nations there was a move away from legislative deliberation and toward executive authority away from free trade and toward the creation of regional trading blocs away from the international gold standard and toward managed national currencies away from chaotic individual liberty and toward rational regimentation in other words away from classical liberalism and toward some combination of corporatism nationalism and militarism For all the similarities however there was still a great divide between two different general approaches to the economic crisis Those countries that enjoyed easy unchallenged access to resources and markets the United States Great Britain the Soviet Union and France tended to turn inward erecting tariff walls and promoting domestic recovery at the expense of the international order On the other hand those nations that lacked such access Germany and Japan sought to take the necessary resources and markets by force The interplay of these powers then constituted the dynamic of international relations of the 1930s have nots attempting to achieve self sufficiency through aggressive means challenging haves that were too distrustful of one another and too preoccupied with their own domestic affairs to work cooperatively in
