Rob Perot The Man Behind The Myth:

American Political Leaders Richard L. Wilson, 2014-05-14 Presents profiles of major figures in American politics from Bella Abzug through Woodrow Wilson arranged alphabetically by area of activity and by year of birth

Our Bodies, Our Data Adam Tanner, 2017-01-10 How the hidden trade in our sensitive medical information became a multibillion dollar business but has done little to improve our health care outcomes Hidden to consumers patient medical data has become a multibillion dollar worldwide trade industry between our health care providers drug companies and a complex web of middlemen This great medical data bazaar sells copies of the prescription you recently filled your hospital records insurance claims blood test results and more stripped of your name but possibly with identifiers such as year of birth gender and doctor As computing grows ever more sophisticated patient dossiers become increasingly vulnerable to reidentification and the possibility of being targeted by identity thieves or hackers Paradoxically comprehensive electronic files for patient treatment the reason medical data exists in the first place remain an elusive goal Even today patients or their doctors rarely have easy access to comprehensive records that could improve care In the evolution of medical data the instinct for profit has outstripped patient needs This book tells the human behind the scenes story of how such a system evolved internationally It begins with New York advertising man Ludwig Wolfgang Frohlich who founded IMS Health the world's dominant health data miner in the 1950s IMS Health now gathers patient medical data from more than 45 billion transactions annually from 780 000 data feeds in more than 100 countries Our Bodies Our Data uncovers some of Frohlich's hidden past and follows the story of what happened in the following decades This is both a story about medicine and medical practice and about big business and maximizing profits and the places these meet places most patients would like to believe are off limits Our Bodies Our Data seeks to spark debate on how we can best balance the promise big data offers to advance medicine and improve lives while preserving the rights and interests of every patient We the public deserve a say in this discussion After all it's our data

Black Swan Moments Joseph Jackson, 2021-06-21 Black Swan Moments is the story of the Kennedy assassination and the man who would have solved it Nuclear physicist Frank Jackson had a top secret security clearance He knew there had been a conspiracy and he was going to name names but on December 13 1963 he died under mysterious circumstances at the age of forty nine His death paved the way for the magic bullet theory This book explains the real reason that Chaim Richman and the Paines were introduced to Lee Harvey Oswald It also reveals what really happened in Dealey Plaza and it names the men who shot Kennedy It features new information that explains how the assassination was financed It was written to explain what happened to Frank Jackson and the measures taken to silence the author It also includes shocking information about the events that led to the controversial removal of Frank Jackson as director of the Center for Naval Analyses in 1962 In 1963 many people in the government were aware of Frank Jackson Among them were Richard Bissell Fred Korth Bobby Kennedy John McCone John Connally and John McCloy The intelligence community couldn't stop

this book from being published because it includes rare photos rare documents and unimpeachable information from well placed sources Highly detailed it answers questions that most people would be afraid to ask about the death of our thirty fifth president *Presidential Also-rans and Running Mates, 1788 Through 1996* Leslie H. Southwick,1998 This is a greatly expanded and now illustrated second edition of a Best Reference Book of the Year 1984 acclaimed by the American Library Association It provides detailed biographies of the 95 United States major party and significant third party nominees who were never elected president or vice president in the 53 quadrennial elections from 1788 89 through 1996 New to this fully updated edition are biographies of nominees since 1984 as well as 41 historic third tier candidates who received at least 2 percent of the popular vote or 5 percent of the electoral votes and portraits or photographs of every single nominee

Mismanaged Money in American Healthcare Lisa Famiglietti,Mark Scott,2023-09-01 Warren Buffett famously invoked the metaphor of a tapeworm when describing what healthcare is to the American economy The United States spends approximately 20% of its gross national product on healthcare but it is unclear where the money goes or who is minding the store This healthcare crisis is mostly about money not lack of money but rather misspending of money From the perspective of a healthcare auditor and provider this work describes the problems of American healthcare finance and proposes solutions Extensive charts and graphs are used to trace where money goes in the American healthcare system while other topics such as ethics in healthcare billing un auditable hospital costs and scams are discussed There is evidence that clearly identifies where the money goes and its destination may surprise the reader

Encyclopedia of American Political Parties and Elections Larry Sabato,Howard R. Ernst,2014-05-14 Presents a complete reference guide to American political parties and elections including an A Z listing of presidential elections with terms people and events involved in the process **From Aristotelian to Reaganomics** R. C. S. Trahair,1994 This reference provides a detailed listing of eponyms in the social sciences along with entries for some toponyms The work includes terms from a broad range of social sciences including anthropology economics education history political science religious studies and sociology The entries are arranged alphabetically Each begins with a brief definition of the term followed by a discussion of the term s history and significance The entry then provides biographical information for the person from whose name the entry was derived A brief bibliography concludes each entry and the dictionary closes with lists of entries arranged by category and a selected bibliography of works on eponyms

Nation of Nations James West Davidson,1998 Out of Many John Mack Faragher,2000 From slavery to freedom in a Black Belt community reconstruction trans Mississippi west Oklahoma land rush Indian people under siege Incorporation of America the progressive era World War I the twenties Great depression and the new deal World War II The Cold War Civil Rights movement Vietnamese War Prisoners of War in American Conflicts Harry P. Riconda,2003 Those interested in the human side of war will find this an interesting and informative read as it discusses details of wars only to the extent necessary to cover prisoners of war Jacket **Promises to Keep** Paul S. Boyer,1999 This challenging and

motivating text presents the experience of the U S in World War II as a backdrop for understanding recent developments and events in American history Four principal interwoven themes trace 1 the pervasive impact of the Cold War 2 the effects of social protest movements among African Americans women and other groups 3 the sources and impact of economic demographic and cultural changes and 4 a thorough examination of politics **Ascesa e declino dell'ordine neoliberale.**

L'America e il mondo nell'era del libero mercato Gary Gerstle, 2024-08-09T00:00:00+02:00 La crisi delle democrazie occidentali schiacciate da disuguaglianze di reddito e disparità sociali leadership populiste e ondate di etnonazionalismo il segno più evidente di una frattura nell'ordine politico che da decenni domina il mondo l'ordine neoliberale che ha preso forma negli Stati Uniti degli anni Settanta e Ottanta e da lì ha conquistato e trasformato il intero pianeta Il suo declino ha avuto origine negli anni di Bush con la fallita ricostruzione dell'Iraq secondo criteri ultraliberisti e lo scoppio della Grande recessione nel 2008 e si manifestato nell'ascesa di Trump e della sinistra guidata da Bernie Sanders Ma per comprendere dove condurrà la caduta dell'ordine neoliberale necessario ricostruire il modo in cui si è consolidato smantellando l'ordine del New Deal prima imperante Gary Gerstle passa in rassegna cent anni di storia americana per rinvenire le tracce ideologiche sociali elettorali organizzative e culturali di un sistema di idee e valori che si è costituito in ordine politico duraturo egemonizzando la destra così come la sinistra Sono noti i principi economici del neoliberalismo Stato minimo e libero scambio libera circolazione di capitali merci e persone privatizzazione e deregolamentazione globalizzazione dei mercati come fattore di prosperità tanto per l'Occidente ben saldo in cabina di pilotaggio quanto per i Paesi emergenti Tuttavia suggerisce Gerstle se il neoliberalismo si è affermato stato anche grazie a valori quali la fiducia nella libertà personale e nell'emancipazione individuale il culto dell'innovazione tecnologica il cosmopolitismo e il multiculturalismo che dopo la fine della Guerra fredda hanno trovato terreno fertile anche in ambito progressista Non a caso tra i suoi principali fautori rientrano tanto Ronald Reagan quanto Bill Clinton Le gravi conseguenze sociali e le disfunzioni politiche dell'ordine neoliberale segnano oggi il suo inesorabile tramonto Ma l'assalto al Congresso del 6 gennaio 2021 dimostra quanto la rottura di un ordine politico può essere pericolosa se ne sorgere uno nuovo potrà essere votato all'uguaglianza e alla solidarietà ma anche all'autoritarismo L'ordine del New Deal aveva persuaso una cospicua maggioranza di americani che un forte Stato centralizzato potesse gestire nel pubblico interesse un'economia capitalistica dinamica ma pericolosa L'ordine neoliberale aveva convinto una maggioranza di americani altrettanto ampia che il libero mercato avrebbe svincolato il capitalismo da inutili controlli statali diffondendo la prosperità e la libertà personale negli Stati Uniti e in tutto il mondo Oggi nessuna di queste proposte gode del sostegno o dell'autorità di un tempo Che cosa verrà dopo Affascinante e incisivo The New York Times raro poter usare l'espressione classico subito dopo l'uscita di un libro ma la storia economica di Gerstle lo merita Financial Times **The British National**

Bibliography Arthur James Wells, 1993 **Recent America** Dewey W. Grantham, 1998 This second edition of Recent America is an extensive revision of the first one and includes entirely new material that carries the coverage forward from

the mid 1940s to the present The emphasis is on national politics federal policy and the role of the United States in international affairs but careful attention also is given to economic trends the evolving social order and major cultural changes In the pages of this book the author has attempted to bring new perspectives to bear on the recent history and to encourage what historian Felix Gilbert describes as reconstructing a historical consciousness that integrates the present with the past I hope the result will provide a useful and engaging introduction to the last half century of American history one that will interest students and general readers alike *The Enduring Vision: From 1865* Paul S. Boyer, 1996 [The Making of a](#)

[Southern Democracy](#) Tom Eamon, 2014-01-01 The story of modern politics in North Carolina is very much one of American democracy with all its grand ambitions limitations and pitfalls So argues Tom Eamon in his probing narrative of the state s political path since the 1940s He charts the state s political transformation into a modern democratic society to show that this change was more than an evolution it was a revolution one that largely came about through political means driven by strong movements and individuals working for change By tracking the turbulence of politics throughout the period from racial tensions to student demonstrations to fierce rivalries in the higher education arena Eamon explores how conflict helped build a better society even as the state continued to lag in many areas This rich account opens to readers the unforgettable people and hard fought elections that have shaped North Carolina s competitive personality and have led to the state s emergence as a major player in twenty first century American politics **Middle Clash** Martin M.

Shinedling, 2000-04-28 Text for Author Bio Dr Shinedling is married with five children and six grandchildren He earned his doctor s degree at Brigham Young University He did post graduate work in neuropsychology at the University of Michigan Dr Shinedling has numerous publications and has presented papers at national and international symposiums He has over 30 years experience working in the field of medical psychology Text for Book Description Dr Shinedling has discovered that his middle class patients are only one illness accident or plant closing away from bankruptcy When he attempted to help his patients survive he discovered the safety nets politicians boast about were an illusion And as both Republicans and Democrats cooperate to change the bankruptcy laws bankruptcy itself will not be an option for the Middle Class Government has increasingly become captive to special interests which control the Democratic and Republican Parties When Democrats are in power they pass laws that raise the taxes of the middle class to benefit their core constituents the poor and minorities And when Republicans gain power they pass laws that help major multinational corporations and the rich Thus intuitively the middle class maintains a divided government so neither the Democratic nor Republican Party is free to serve their core supporters Dr Shinedling suggests a way to change government and politics He suggests first use the voting power of the middle class to consistently vote out incumbents If only five percent of independents start voting against incumbents over ninety percent of Congress will not be re elected Shocking the political system will cause politicians to stop pandering to special interests Secondly he defines the issues which will enlist the support of the middle class in the formation of an

independent and powerful third party **Encyclopedia of Political Communication** Lynda Lee Kaid, Christina Holtz-Bacha, 2008 Political communication began with the earliest studies of democratic discourse by Aristotle and Plato. However, modern political communication relies on an interdisciplinary base which draws on concepts from communication, political science, journalism, sociology, psychology, history, rhetoric, and others. This two-volume resource considers political communication from a broad interdisciplinary perspective encompassing the many different roles that communication plays in political processes in the United States and around the world. The Encyclopedia of Political Communication discusses the major theoretical approaches to the field, including direct and limited effects theories, agenda setting theories, sociological theories, framing and priming theories, and other past and present conceptualizations. With nearly 600 entries, this resource pays considerable attention to important political messages such as political speeches, televised political advertising, political posters, and print advertising; televised political debates; and Internet sites. The audiences for political communications are also central, necessitating concentration on citizen reactions to political messages, how the general public and voters in democratic systems respond to political messages, and the effects of all types of media and message types. Key Features: Encompasses several channels of political communication, including interpersonal and public communication, radio, television, newspapers, and the World Wide Web. Provides news media coverage and journalistic analysis of politics, political issues, political figures, and political institutions. Concentrates on the field of political communication since the middle of the 20th century. Emphasizes political communication from the point of view of the United States, but there is substantial and important research and scholarship on political communication in international contexts. Considers the role of communication in governing, incorporating communication activities that influence the operation of executive, legislative, and judicial bodies, political parties, interest groups, political action committees, and other participants in political processes. Key Themes: Biographies, Books, Films, Journals, Television, Democracy, Democratization, Education, and Nonprofit Organizations, Elections, Government Operations and Institutions, Legal and Regulatory Media, Events, Media Outlets and Programs, Role of Media in Political Systems, News Media Coverage of Politics, Political Affairs, Theoretical Approaches, Types of Political Media, Political Attitudes, Political Campaigns, Political Events, Political Groups and Organizations, Political Issues, Political Journalism, Theoretical Concepts, Women in Politics. The Encyclopedia of Political Communication is designed for libraries, undergraduates, and members of the public with an interest in political affairs. Media and political professionals, as well as government officials, lobbyists, and participants in independent political organizations, will find these volumes useful in developing a better understanding of how the media and communication function in political settings. http://catdir.loc.gov/catdir/enhancements/fy0828/2007026514_d.html Lights, Camera, War Johanna Neuman, 1996. Assesses the influence of worldwide media coverage on political decisions and discusses how the political process adapts to new technologies.

Creating the Vietnam Veterans Memorial Robert W. Doubek, 2015-07-02. Since its dedication in 1982, the Vietnam

Veterans Memorial has become an American cultural icon symbolizing the war in Vietnam the defining experience of the Baby Boom generation The black granite wall of names is one of the most familiar media images associated with the war and after three decades the memorial remains one of the nation s most visited monuments While the memorial has enjoyed broad acceptance by the American public its origins were both humble and contentious A grassroots effort launched by veterans with no funds the project was completed in three and a half years But an emotional debate about aesthetics and the interpretation of heroism patriotism and history nearly doomed the project Written from an insider s perspective this book tells the complete story of the memorial s creation amid Washington politics a nationwide design competition and the heated controversy over the winning design and its creator
