Robert A. Heinlein Joseph D. Olander, Martin Harry Greenberg, 1978 **For Us, the Living** Robert Anson Heinlein, 2006

For Us, The Living Robert A. Heinlein, 2004-01-06 From Grandmaster Robert A Heinlein comes a long lost first novel written in 1939 and never before published introducing ideas and themes that would shape his career and define the genre that is synonymous with his name July 12 1939 Perry Nelson is driving along the palisades when suddenly another vehicle swerves into his lane a tire blows out and his car careens off the road and over a bluff The last thing he sees before his head connects with the boulders below is a girl in a green bathing suit prancing along the shore When he wakes the girl in green is a woman dressed in furs and the sun drenched shore has transformed into snowcapped mountains The woman Diana rescues Perry from the bitter cold and takes him inside her home to rest and recuperate Later they debate the cause of the accident for Diana is unfamiliar with the concept of a tire blowout and Perry cannot comprehend snowfall in mid July Then Diana shares with him a vital piece of information The date is now January 7 The year 2086 When his shock subsides Perry begins an exhaustive study of global evolution over the past 150 years He learns among other things that a United Europe was formed and led by Edward Duke of Windsor former New York City mayor LaGuardia served two terms as president of the United States the military draft was completely reconceived banks became publicly owned and operated and in the year 2003 two helicopters destroyed the island of Manhattan in a galvanizing act of war This education in the ways of the modern world emboldens Perry to assimilate to life in the twenty first century But education brings with it inescapable truths the economic and legal systems the government and even the dynamic between men and women remain alien to Perry the customs of the new day continually testing his mental and emotional resolve Yet it is precisely his knowledge of a bygone era that will serve Perry best as the man from 1939 seems destined to lead his newfound peers even further into the future than they could have imagined A classic example of the future history that Robert Heinlein popularized during his career *For Us The Living* marks both the beginning and the end of an extraordinary arc of political social and literary crusading that comprises his legacy Heinlein could not have known in 1939 how the world would change over the course of one and a half centuries but we have our own true world history to compare with his brilliant imaginings rendering *For Us The Living* not merely a novel but a time capsule view into our past our present and perhaps our future The novel is presented here with an introduction by acclaimed science fiction writer Spider Robinson and an afterword by Professor Robert James of the Heinlein Society

Friday Robert Anson Heinlein, 1982 A CAEZIK Notable book CAEZIK Notables is a series of speculative fiction books marking important milestones in science fiction or fantasy Each book published in the series has a new introduction highlighting the book's significance within the genre A charming protagonist in a story as sleekly engineered as a starship This one should fly Publishers Weekly Friday is a secret courier and ardent lover Employed by a man she only knows of as Boss she is given the most awkward and dangerous cases which take her from New Zealand to Canada and through the new

States of America's disunion all the way out into the stars and the new colony of Botany Bay thrust into one calamity after another she uses her enhanced wits and very many skills to evade, seduce or even kill her way out of any sticky situation she finds herself in. For she is both superior and inferior to the average human. As an AP artificial person the best humanity has to offer has been written into Friday's DNA. Yet she is often treated like a second class citizen if she were ever able to claim citizenship. Her mother was the test tube and her father the knife as the saying goes so she has less rights than the biologically born human and no soul according to the church. But in Friday Heinlein has created one of the most enlightened, warm, engaging and humane characters in the science fiction field, gifting us a novel of female empowerment that was well ahead of its time. One of Heinlein's best, which is to say one of the best in all of Science Fiction, terrific story with a superbly realized heroine and world. Poul Anderson Variable Star Robert A. Heinlein, Spider Robinson, 2006-09-19. Powerful tale of two young lovers driven apart by pride, power and the vastness of interstellar time and space. *The Door Into Summer* Robert Anson Heinlein, 1957. With several Hollywood Heinlein adaptations about to be launched including *Starship Troopers* by the director of *Total Recall*, this SF superstar is shining brighter than ever. To celebrate his success Del Rey is reissuing the author's classic works back into the forefront, beginning with *The Door into Summer*, the story of a modern day and future time Rip Van Winkle. Copyright Libri GmbH. All rights reserved. *The Heritage of Heinlein* Thomas D. Clareson, Joe Sanders, 2014-01-27. Robert A. Heinlein is generally recognized as the most important American science fiction writer of the 20th century. This is the first detailed critical examination of his entire career. It is not a biography that is being done in a two volume work by William Patterson. Instead, this book looks at each piece of fiction and a few pieces of sf related nonfiction that Heinlein wrote chronologically by date of publication in order to consider what each contributes to his overall accomplishment. The aim is to be fair, to look clearly at the strengths and weaknesses of the writings that have inspired generations of readers and writers. **Robert A. Heinlein, Vol 2** William H. Patterson, 2010. The second volume of the first authorized biography of Robert A. Heinlein, generally considered the greatest SF writer of the 20th century, a bestselling author, military man, politician and one of the founding minds of Libertarian politics in the USA. **Robert A. Heinlein: In Dialogue with His Century, Volume 1** William H. Patterson, Jr., 2011-06-21. For the first time the real story of the life of Robert A. Heinlein in the authorized biography *Robert A. Heinlein 1907-1988* is generally considered the greatest American SF writer of the 20th century. A famous and bestselling author in later life, he started as a navy man and graduate of Annapolis, who was forced to retire because of tuberculosis. A socialist politician in the 1930s, he became one of the sources of Libertarian politics in the USA in his later years. His most famous works include the *Future History* series stories and novels collected in *The Past Through Tomorrow* and continued in later novels *Starship Troopers*, *Stranger in a Strange Land* and *The Moon is a Harsh Mistress*. Given his desire for privacy in the later decades of his life, he was both stranger and more interesting than one could ever have known. This is the first of two volumes of a major American biography. This volume is
