**Presidents: Franklin Roosevelt to Barack Obama** Suzanne Angioli,2016-04-05 While studying the astrological birth charts of all the US presidents I discovered that those of the thirteen modern US presidents from Franklin Roosevelt to Barack Obama all had the natal Sun the planet most associated with ones basic identity making an aspect certain designated degrees between two planets to their natal Neptune This was surprising since I would have thought that politicians particularly those aspiring to the presidency would have an overwhelming emphasis on the Sun Mars aspect but not on the Sun Neptune aspect What I discovered in my research was that good politicians are not warriors Sun Mars per se who use the techniques of warfare to muscle their way through adversity Rather they are good actors Sun Neptune who are essentially chameleons Sun Neptune operating in the foggy Neptune realm of subtlety Neptune and seduction using their sensitivity Neptune and charm Neptune to serve their intuitive Neptune sides to try to achieve their goals It became apparent that a good politician is excellent at assuming different roles in order to fit a given political situation and move his agenda forward The Sun in aspect to Neptune is not unusual but there is no aggregate population that has 100 percent of its members with this aspect like the modern presidents I was intrigued with this occurrence and thus set out to research their individual biographies to see just how this aspect played out in their lives After all it seemed to be almost a prerequisite for being elected to the modern Oval Office **Memoir of Mr. Robert Hales** K. The Pilgrim's Progress ... an a Life of the Author by Robert Philip John Bunyan, 1850

The Collected Prose of Robert Frost Robert Frost, 2009-01-01 Robert Frost is one of the most widely read well loved and misunderstood of modern writers In his day he was also an inveterate note taker penning thousands of intense aphoristic thoughts observations and meditations in small pocket pads and school theme books throughout his life These notebooks transcribed and presented here in their entirety for the first time offer unprecedented insight into Frost's complex and often highly contradictory thinking about poetics politics education psychology science and religion his attitude toward Marxism the New Deal World War as well as Yeats Pound Santayana and William James Covering a period from the late 1890s to early 1960s the notebooks reveal the full range of the mind of one of America's greatest poets Their depth and complexity convey the restless and probing quality of his thought and show how the unruliness of chaotic modernity was always just beneath his appearance of supreme poetic control Edited and annotated by Robert Faggen the notebooks are cross referenced to mark thematic connections within these and Frost's other writings including his poetry letters and other prose This is a major new addition to the canon of Robert Frost's writings

The Notebooks of Robert

Frost Robert Frost, 2007-01-01 During his lifetime Robert Frost notoriously resisted collecting his prose going so far as to halt the publication of one prepared compilation and to lose the transcripts of the Charles Eliot Norton Lectures he delivered at Harvard in 1936 But for all his qualms Frost conceded to his son that you can say a lot in prose that verse won't let you say and that the prose he had written had in fact made good competition for his verse This volume the first critical edition of Robert Frost's prose allows readers and scholars to appreciate the great American author's forays beyond poetry and to discover in the prose that he did make public in newspapers magazines journals speeches and books the wit force and grace that made his poetry famous The Collected Prose of Robert Frost offers an extensive and illuminating body of work ranging from juvenilia Frost's contributions to his high school Bulletin to the charming chicken stories he wrote as a young family man for The Eastern Poultryman and Farm Poultry to such famous essays as The Figure a Poem Makes and the speeches and contributions to magazines solicited when he had become the Grand Old Man of American letters Gathered annotated and cross referenced by Mark Richardson the collection is based on extensive work in archives of Frost's manuscripts It provides detailed notes on the author's habits of composition and on important textual issues and includes much previously unpublished material It is a book of boundless appeal and importance one that should find a home on the bookshelf of anyone interested in Frost

**Robert Brown and the Vancouver Island Exploring Expedition** John Hayman, 2011-11-01 Robert Brown a twenty one year old Scotsman arrived on Vancouver Island in 1863 for the purpose of collecting seeds roots and plants for the Botanical Association of Edinburgh Relations with his employer quickly deteriorated however and when the opportunity arose in 1864 to head the Vancouver Island Exploring Expedition Brown eagerly accepted the position as its commander During the four and a half months of the expedition Brown kept a journal which is published here for the first time It is remarkable for its record of life on Vancouver Island over a century ago and its description of the island's pristine wilderness as well as for its proposals for future economic development The accounts of agricultural settlements at Cowichan Chemainus and Comox and of the coal mining town of Nanaimo are among the earliest available The Vancouver Island Exploring Expedition did not venture north of Comox but it crossed the island at several points often by new routes and in the process left its mark by giving place names to several locations The expedition's most celebrated achievement was the discovery of gold at Leech River named after the second in command which resulted in a short but sensational gold rush Robert Brown was exceptionally interested in the way of life of the native people His entries on land reserve policies and on the failure to settle land claims are especially pertinent today Excerpts from his related writings among them one of the earliest records of a potlatch at Alberni and a collection of Indian myths and legends display an appreciation unusual at that time Most of the known drawings of the expedition by Frederick Whympers the travelling artist are included in the book and give a contemporary view of many of the sites the expedition encountered A checklist of Brown's other writings on the northwest coast completes the book
