Robert Ashley:

Robert Ashley Kyle Gann, 2012-12-16 This book explores the life and works of the pioneering opera composer Robert Ashley one of the leading American composers of the post Cage generation Ashley's innovations began in the 1960s when he along with Alvin Lucier Gordon Mumma and David Behrman formed the Sonic Arts Union a group that turned conceptualism toward electronics He was also instrumental in the influential ONCE Group a theatrical ensemble that toured extensively in the 1960s During his tenure as its director the ONCE Festival in Ann Arbor presented most of the decade's pioneers of the performing arts Particularly known for his development of television operas beginning with *Perfect Lives* Ashley spun a long series of similar text music works sometimes termed performance novels These massive pieces have been compared with Wagner's Ring Cycle for the vastness of their vision though the materials are completely different often incorporating noise backgrounds vernacular music and highly structured even serialized musical structures Drawing on extensive research into Ashley's early years in Ann Arbor and interviews with Ashley and his collaborators Kyle Gann chronicles the life and work of this musical innovator and provides an overview of the avant garde milieu of the 1960s and 1970s to which he was so central Gann examines all nine of Ashley's major operas to date in detail along with many minor works revealing the fanatical structures that underlie Ashley's music as well as private references hidden in his opera librettos Robert Ashley, 1998

Perfect Lives Robert Ashley, 1991 Ashley a legendary figure in American experimental music theater has been a major influence on avant garde composers and writers His 1983 opera for television *Perfect Lives* was acclaimed in England but is not widely known in the United States This publication of the libretto coincides with the release of a three CD package of the opera itself The text is a marvel of disjointed flat quintessentially American language an apt reflection of the Midwestern locale of the plot Readers who prefer conventional structure and logical syntax will be repelled by the Gertrude Stein like fragmentation and maddening obscurity The text like all libretti is an incomplete document but here amidst the flakiness there are moments of great insight and humor Ashley's candid remarks on the history of the opera and on the nature of composing itself make an entertaining epilog Larry Lipkis Library Journal *Robert D. Ashley Century 21 Collection* Robert D. Ashley, 1960 The collection contains a variety of published materials and other types of media that document the 1962 Seattle World's Fair Century 21 Exposition The items were acquired by Robert Ashley while he served as Legal Advisor to the Fair and donated to the Library by his son Eli D Ashley in July 1987 The collection is organized by format and includes print materials photographs posters slides sound recordings and film The wide variety of print materials provides extensive background information about the Fair Public relations booklets and brochures give historical context on Fair development as well as detailed descriptions and statistics about exhibits and activities Official materials published by the Fair organization include event programs press releases tickets postcards posters and souvenir items Externally published items include Northwest maps magazine articles and tourist brochures The print collection also has extensive postal items

including commemorative envelopes and stamps The audio visual materials include a collection of sound recordings 45 and 33 rpm some with accompanying print lyrics Music was recorded at some live Fair performances Other music was composed about Seattle and the Fair with humorous and other themes The collection of slides includes a set produced by Morley Studios the official photographer of the fair The color photographs in the collection are enlarged and mounted on board The 8 x 10 collection of black and white photographs with Fair subjects are captioned and were produced and distributed by the public relations department

A genealogical and heraldic History of the extinct and dormant Baronetcies of England, Ireland and Scotland John Burke,1844 *Burr, Hamilton, and Jefferson* Roger G. Kennedy,2000-09-28 This book restores Aaron Burr to his place as a central figure in the founding of the American Republic Abolitionist proto feminist friend to such Indian leaders as Joseph Brant Burr was personally acquainted with a wider range of Americans and of the American continent than any other Founder except George Washington He contested for power with Hamilton and then with Jefferson on a continental scale The book does not sentimentalize any of its three protagonists neither does it derogate their extraordinary qualities They were all great men all flawed and all three failed to achieve their full aspirations But their struggles make for an epic tale Written from the perspective of a historian and administrator who over nearly fifty years in public life has served six presidents this book penetrates into the personal qualities of its three central figures In telling the tale of their shifting power relationships and their antipathies it reassesses their policies and the consequences of their successes and failures Fresh information about the careers of Hamilton and Burr is derived from newly discovered sources and a supporting cast of secondary figures emerges to give depth and irony to the principal narrative This is a book for people who know how political life is lived and who refuse to be confined within preconceptions and prejudices until they have weighed all the evidence to reach their own conclusions both as to events and character This is a controversial book but not a confrontational one for it is written with sympathy for men of high aspirations who were disappointed in much but who succeeded in all three cases to a degree not hitherto fully understood

Music Downtown Kyle Gann,2006-02-13 This collection represents the cream of the more than five hundred articles written for the Village Voice by Kyle Gann a leading authority on experimental American music of the late twentieth century Charged with exploring every facet of cutting edge music coming out of New York City in the 1980s and 90s Gann writes about a wide array of timely issues that few critics have addressed including computer music multiculturalism and its thorny relation to music music for the AIDS crisis the brand new art of electronic sampling and its legal implications symphonies for electric guitars operas based on talk shows the death of twelve tone music and the various streams of music that flowed forth from minimalism In these articles including interviews with Yoko Ono Philip Glass Glenn Branca and other leading musical figures Gann paints a portrait of a bristling era in music history and defines the scruffy vernacular field of Downtown music from which so much of the most fertile recent American music has come
