Robert Crews:

Robert Crews Thomas Berger, 2016-07-10 From the author of Little Big Man comes a modern retelling of Robinson Crusoe that is an introspective look at the human condition only Thomas Berger could deliver Both a survival tale and a story of the redemptive power of love and nature the novel exudes an optimism rare in contemporary fiction Library Journal On a fishing expedition with one friend he can barely tolerate and two other men he barely knows Robert Crews is content to spend the entirety of the flight in the alcoholic haze he's all too familiar with But when the turbulence becomes something more it's clear that something is wrong Crash landing in unfamiliar territory Crews is the sole survivor to emerge from the wreckage Alone and without a drop of alcohol for the first time in his life he must face the wild and worse himself Crews salvages what's left of his companion's survival gear from the plane learns to build his first fire and fashions a makeshift shelter from the elements Alone with his memories Crews begins to lament the years he spent wandering aimlessly through life unable to attach himself to a single thing or a single person His new lessons in self care and human understanding pick up the pace when he suddenly encounters a woman on the run from her violent husband Sparking new feelings of compassion protectiveness and genuine love in Crews he allows Friday to join him on the search for civilization all while avoiding the husband that seems bent on getting Friday back into his abusive grasp Even in their return to civilization Berger crafts a conclusion that sets this surprisingly tender retelling apart from every other tribute to Crusoe *The Southwestern Reporter*, 1921 The South Western Reporter, 1921 Includes the decisions of the Supreme Courts of Missouri Arkansas Tennessee and Texas and Court of Appeals of Kentucky Aug Dec 1886 May Aug 1892 Court of Appeals of Texas Aug 1892 Feb 1893 Jan Feb 1928 Courts of Civil and Criminal Appeals of Texas Apr June 1896 Aug Nov 1907 Court of Appeals of Indian Territory May June 1927 Jan Feb 1928 Courts of Appeals of Missouri and Commission of Appeals of Texas **Reports of Cases Determined by the Supreme Court of the State of Missouri** Missouri. Empire Speaks Out Ilya Gerasimov,Jan Kusber,Alexander Semyonov,2009-06-02 Historians habitually write about empires that expand wage wars and collapse as if empires were self evident and self conscious entities with a distinct and clear sense of purpose The stories of empires are told in the language of modern nation centred social sciences multi cultural and heterogeneous empires of the past appear either as huge nations with a common language culture and territory or as amalgamations of would be nations striving to gain independence Empire Speaks Out reconstructs the historical encounter of

the Russian Empire of the seventeenth through the early twentieth centuries with the complex challenge of modernity It does so by taking the self awareness of empire seriously and by looking into how bureaucrats ideologues politicians scholars and modern professionals described the ethnic cultural and social diversity of the empire Empire then reveals itself not through deliberate and well conceived actions of some mysterious political body but as a series of imperial situations that different people encounter and perceive in common categories The rationalization of previously intuitive social practices as imperial languages is the central theme of the collection This book is published with support from Volkswagen Foundation within the collective research project Languages of Self Description and Representation in the Russian Empire US Nation-Building in Afghanistan

Conor Keane,2016-03-31 Why has the US so dramatically failed in Afghanistan since 2001 Dominant explanations have ignored the bureaucratic divisions and personality conflicts inside the US state This book rectifies this weakness in commentary on Afghanistan by exploring the significant role of these divisions in the US s difficulties in the country that meant the battle was virtually lost before it even began The main objective of the book is to deepen readers understanding of the impact of bureaucratic politics on nation building in Afghanistan focusing primarily on the Bush Administration It rejects the rational actor model according to which the US functions as a coherent monolithic agent Instead internal divisions within the foreign policy bureaucracy are explored to build up a picture of the internal tensions and contradictions that bedeviled US nation building efforts The book also contributes to the vexed issue of whether or not the US should engage in nation building at all and if so under what conditions **Empire of Difference** Karen

Barkey,2008-06-23 This book is a comparative study of imperial organization and longevity that assesses Ottoman successes as well as failures against those of other empires with similar characteristics Barkey examines the Ottoman Empire s social organization and mechanisms of rule at key moments of its history emergence imperial institutionalization remodeling and transition to nation state revealing how the empire managed these moments adapted and averted crises and what changes made it transform dramatically The flexible techniques by which the Ottomans maintained their legitimacy the cooperation of their diverse elites both at the center and in the provinces as well as their control over economic and human resources were responsible for the longevity of this particular negotiated empire Her analysis illuminates topics that include imperial governance imperial institutions imperial diversity and multiculturalism the manner in which dissent is handled and or internalized and the nature of state society negotiations **Arthurian Writers** Laura Lambdin,Robert Thomas

Lambdin,2007-11-30 King Arthur is perhaps the central figure of the medieval world and the lore of Camelot has captivated literary imaginations from the Middle Ages to the present Included in this volume are extended entries on more than 30 writers who incorporate Arthurian legend in their works Arranged chronologically the entries trace the pervasive influence of Arthurian lore on world literature across time Entries are written by expert contributors and discuss such writers as Geoffrey of Monmouth Boccaccio Chaucer Mark Twain John Steinbeck and Margaret Atwood Each entry provides biographical

information a discussion of the author's use of Arthurian legend and contribution to the Arthurian literary tradition and a bibliography of primary and secondary material The volume begins with an introductory overview and concludes with suggestions for further reading The central figure of the medieval world King Arthur has captivated literary imaginations from the Middle Ages to the present This book includes extended entries on more than 30 writers in the Arthurian tradition Arranged chronologically and written by expert contributors the entries trace the pervasive influence of Arthurian legend from the Middle Ages to the present Each entry provides biographical information a discussion of the writer's use of Arthurian legend and contribution to the Arthurian literary tradition and a bibliography of primary and secondary material The volume begins with an introductory overview and closes with a discussion of Arthurian lore in art along with suggestions for further reading Students will gain a better understanding of the Middle Ages and the lasting significance of the medieval world on contemporary culture

Resignification of Borders: Eurasianism and the Russian World Nina Friess, Konstantin Kaminskij, 2019-08-23 Eurasianism has proved to be an unexpectedly diverse and highly self-reflexive concept By transforming the way we describe the Eurasian landmass it also resignifies our field of studies and its disciplinary boundaries In this process Eurasianism itself is subject to a constant resignification The present volume builds on this notion while pursuing an innovative approach to Eurasianism The authors advance the well-established positions that view Eurasianism as a historical intellectual movement or as an ideology of Russian neo-Imperialism and proceed to unpack an innovative vision of Eurasianism as a process of renegotiating cultural values and identity narratives in and beyond Russia This procedural approach provides deeper insight into the operationality of the identity narratives and shifting semantics of Eurasianism in its relation to the Russian World

Pathological Counterinsurgency Samuel R. Greene, 2018-06-29 Pathological Counterinsurgency critically examines the relationship between elections and counterinsurgency success in third-party campaigns supported by the United States From Vietnam to El Salvador to Iraq and Afghanistan many policymakers and academics believed that democratization would drive increased legitimacy and improved performance in governments waging a counterinsurgency campaign Elections were expected to help overcome existing deficiencies thus allowing governments supported by the United States to win the hearts and minds of its populace undermining the appeal of insurgency However in each of these cases campaigning in and winning elections did not increase the legitimacy of the counterinsurgent government or alter conditions of entrenched rent seeking and weak institutions that made states allied to the United States vulnerable to insurgency Ultimately elections played a limited role in creating the conditions needed for counterinsurgency success Instead decisions of key actors in government and elites to prioritize either short-term personal and political advantage or respect for political institutions held a central role in counterinsurgency success or failure In each of the four cases in this study elected governments pursued policies that benefited members of the government and elites at the expense of broader legitimacy and improved performance Expectations that democratization could serve as a key

instrument of change led to unwarranted optimism about the likely of success and ultimately to flawed strategy The United States continued to support regimes that continued to lack the legitimacy and government performance needed for victory in counterinsurgency
