*Awakening the Eye* George Kouvaros, 2015-09-01 Until now celebrated photographer Robert Frank's daring and unconventional work as a filmmaker has not been awarded the critical notice it deserves In this timely volume George Kouvaros surveys Frank's films and videos and places them in the larger context of experimentation in American art and literature since World War II Born in 1924 Frank emigrated from Switzerland to the United States in 1947 and quickly made his mark as a photojournalist A 1955 Guggenheim Foundation fellowship allowed him to travel across the country photographing aspects of American life that had previously received little attention The resulting book *The Americans* with an Introduction by Jack Kerouac is generally considered a landmark in the history of postwar photography During the same period Frank befriended other artists and writers among them Allen Ginsberg Peter Orlovsky and Gregory Corso all of whom are featured in his first film *Pull My Daisy* which is narrated by Kerouac This film set the terms for a new era of experimental filmmaking By examining Frank's films and videos including *Pull My Daisy* *Me and My Brother* and *Cocksucker Blues* in the framework of his more widely recognized photographic achievements Kouvaros develops a model of cross media history in which photography film and video are complicit in the search for fresh forms of visual expression *Awakening the Eye* is an insightful compelling and at times moving account of Frank's determination to forge a personal connection between the circumstances of his life and the media in which he works      *The Works of Allen Ginsberg, 1941-1994* Bill

Stein, 2016-07-12 Uncovering the legacy of art dealer Richard Bellamy one of the most influential tastemakers of abstract expressionism and pop art      The Rhizomatic West Neil Campbell, 2008-12-01 Is the American West in Sergio Leone's spaghetti westerns the same American West we find in Douglas Coupland's Generation X In Jim Jarmusch's movies In Calexico's music Or is the American West as this book tells us a constantly moving mutating idea within a complex global culture And what precisely or better yet imprecisely does it mean Using Gilles Deleuze and Félix Guattari's concept of the rhizome Neil Campbell shows how the West or west-ness continually breaks away from a mainstream notion of American rootedness and renews and transforms itself in various cultural forms A region long traversed by various transient peoples from tribes and conquerors to immigrants traders and trappers the West reflects a mythic quest for settlement permanence and synthesis even notions of a national or global identity at odds with its

rootless history culture and nature Crossing the concept of roots with routes this book shows how notions of the West in representations ranging from literature and film to photography music and architectural theory give expression to ideas about identity nationhood and belonging in a world increasingly defined by movement across time and borders The Rhizomatic West offers a new vision of the American West as a hybrid performative space a staging place for myriad intersecting and constantly changing identities Deliberate Speed W.
