popularity from the era of Nicholas I onwards It stands today as a dominant force in post Soviet publishing Yet studies of Russian biography s poetics and its role as a literary and cultural institution in the nineteenth and twentieth centuries remain thin on the ground a fact often lamented yet not fully addressed in the scattered writings on the subject The present volume examines modern Russian biography as a literary form a publishing phenomenon and a cultural force that reveals and contests hegemonic ideas of the role of the individual in society and of the make up of the human personality itself
