Sbs Culture And Identity:

Australian Television Culture Tom O'Regan, 2020-07-24 Australian television has been transformed over the past decade. Cross media ownership and audience reach regulations redrew the map and business culture of television leading business entrepreneurs acquired television stations and then sold them in the bust of the late 1980s and new television services were developed for non English speaking and Aboriginal viewers. Australian Television Culture is the first book to offer a comprehensive analysis of the fundamental changes of this period. It is also the first to offer a substantial treatment of the significance of multiculturalism and Aboriginal initiatives in television. Tracing the links between local, regional, national and international television services, Tom O'Regan builds a picture of Australian television. He argues that we are not just an outpost of the US networks and that we have a distinct television culture of our own, a truly innovative book. The author ambitiously strives for a large scale synthesis of policy, program analysis, history, politics, international influences and the Australian television system's place in the world. Associate Professor Stuart Cunningham, Queensland University of Technology. **'For those who've come across the seas...'** Andrew Jakubowicz, Christina Ho, 2014-02-15 **Culture in Australia** Tony Bennett, David Carter, 2001-09-03 A 2001 survey of the changing policies and priorities that are evident in a range of contemporary cultural institutions in Australia. *Reconciling Cultural and Political Identities in a Globalized World* Michális Michael, 2016-04-29 Though geographically far apart, Turkey and Australia are much closer than many would think. This collection provides a relevant comparative and comprehensive study of two countries seeking to reconcile their history with their geography. *Reinventing Public Service Communication* P. Iosifidis, 2015-12-26 These essays address one of the most challenging debates in contemporary European media studies: the transition of the traditional Public Service Broadcasters into Public Service Media as they widen their remit to produce and distribute public service content across more delivery platforms to meet the requirements of the digital age. **Global Perspectives on the Politics of Multiculturalism in the 21st Century** Fethi Mansouri, Boulou Ebanda de B'éri, 2014-06-05 Multiculturalism is now seen by many of its critics as the source of intercultural and social tensions, fostering communal segregation and social conflicts. While the cultural diversity of contemporary societies has to be acknowledged as an empirical and demographic fact, whether multiculturalism as a policy offers an optimal conduit for intercultural understanding and social harmony has become increasingly a matter of polarised public debate. This book examines the contested philosophical foundations of multiculturalism and its often controversial applications in the context of migrant societies. It also explores the current theoretical debates about the extent to which multiculturalism and related conceptual constructs can account for the various ethical challenges and policy dilemmas surrounding the management of cultural diversity in our contemporary societies. The authors consider common conceptual and empirical features from a transnational perspective through analysis of the case studies of Australia, Canada, Columbia, Germany, New Zealand, the United Kingdom and Uruguay. This book will be of interest
