Lichtman, 2012-08-15 In this volume attorney Robert M Lichtman provides a comprehensive history of the U S Supreme Court s decisions in Communist cases during the McCarthy era Lichtman shows the Court s vulnerability to public criticism and attacks by the elected branches during periods of political repression The book describes every Communist related decision of the era none is omitted placing them in the context of political events and revealing the range and intrusiveness of McCarthy era repression In Fred Vinson s term as chief justice 1946-53 the Court largely rubber stamped government action against accused Communists and subversives After Earl Warren replaced Vinson as chief justice in 1953 however the Court began to rule against the government in Communist cases choosing the narrowest of grounds but nonetheless outraging public

opinion and provoking fierce attacks from the press and Congress Legislation to curb the Court flooded Congress and seemed certain to be enacted The Court's situation was aggravated by its 1954 school desegregation decision *Brown v Board of Education* which led to an anti Court alliance between southern Democrats and anti Communists in both parties Although Lyndon Johnson's remarkable talents as Senate majority leader saved the Court from highly punitive legislation the attacks caused the Court to retreat with Felix Frankfurter leading a five justice majority that decided major constitutional issues for the government and effectively nullified earlier decisions Only after August 1962 when Frankfurter retired and was replaced by Arthur Goldberg did the Court again begin to vindicate individual rights in Communist cases its McCarthy era was over Demonstrating keen insight into the Supreme Court's inner workings and making extensive use of the justices papers Lichtman examines the dynamics of the Court's changes in direction and the relationships and rivalries among its justices including such towering figures as Hugo Black Felix Frankfurter Earl Warren William O Douglas and William J Brennan Jr *The Supreme Court and McCarthy Era Repression One Hundred Decisions* tells the entire story of the Supreme Court during this unfortunate period of twentieth century American history *The Politics of Human Rights* Sabine C. Carey, Mark Gibney, Steven C. Poe, 2010-10-14 Human rights is an important issue in contemporary politics and the last few decades have also seen a remarkable increase in research and teaching on the subject This book introduces students to the study of human rights and aims to build on their interest while simultaneously offering an alternative vision of the subject Many texts focus on the theoretical and legal issues surrounding human rights This book adopts a substantially different approach which uses empirical data derived from research on human rights by political scientists to illustrate the occurrence of different types of human rights violations across the world The authors devote attention to rights as well as to responsibilities neither of which stops at one country's political borders They also explore how to deal with repression and the aftermath of human rights violations making students aware of the prospects for and realities of progress
