The Scarecrow

Peter Haining,1988 A scarecrow is one of the most familiar figures on the rural landscape not only in Britain but throughout Europe and many other countries of the world Their ragged figures have been recorded in rural history for centuries and the image of a scarecrow has proved irresistible from William Shakespeare to Walter de la Mare as well as to film makers since the dawn of the silent movie Despite this however the origins and development of the scarecrow have remained obscured in mystery Peter Haining presents the results of years of research into the scarecrow This book throws new light on the subject and the text is complemented with a variety of illustrations including cartoons line drawings photographs and engravings
