Scenes From A Highland Life:

Scenes from a Highland Life Ralph Glasser, 1981 *Assembling Identities* Sam Wiseman, 2014-10-21 This collection of sixteen essays drawn from across the arts humanities and social sciences represents a cross disciplinary exploration of some of the ways in which identities whether of individuals communities or nations are constructed maintained and contested It is introduced by the editor Sam Wiseman with a preface by Regenia Gagnier and the essays are subdivided into four sections Performative Identities British Identities Ethnic Bodily and Sexual Identities and Visual **Second Sight in the Nineteenth Century** Elsa Richardson, 2017-06-02 This book explores the phenomenon of second sight in nineteenth century literature and culture Second sight is a form of prophetic vision associated with the folklore of the Scottish Highlands and Islands Described in Gaelic as the An da shealladh or the two sights those in possession of this extraordinary power are said to foresee future events like the death of neighbour the arrival of strangers into the community the success or failure of a fishing trip From the late seventeenth century onwards rumours of this strange faculty attracted the attention of numerous scientists travel writers antiquarians poets and artists Focusing on the nineteenth century this book examines second sight in relation to mesmerism and phrenology modern spiritualism and anthropology romance literature and folklorism and finally psychical research and Celtic mysticism Tracing the migration of a supposedly Scottish tradition through various sites of nineteenth century popular culture it explores questions of nationhood and identity alongside those posed by supernatural phenomena **Theatrical Nation** Michael Ragussis, 2012-05-22 Perhaps the most significant development of the Georgian theater was its multiplication of ethnic colonial and provincial character types parading across the stage In *Theatrical Nation* Michael Ragussis opens up an archive of neglected plays and performances to examine how this flood of domestic and colonial others showcased England in general and London in particular as the center of an increasingly complex and culturally mixed nation and empire and in this way illuminated the shifting identity of a newly configured Great Britain In asking what kinds of ideological work these ethnic figures performed and what forms were invented to accomplish this work Ragussis concentrates on the most popular of the outlandish Englishmen the stage Jew Scot and Irishman *Theatrical Nation* understands these stage figures in the context of the government's controversial attempts to merge different ethnic and national groups through the 1707 Act of Union with Scotland the Jewish Naturalization Bill of 1753 and the Act of Union with Ireland of 1800 Exploring the significant theatrical innovations that illuminate the central anxieties shared by playhouse and nation Ragussis considers how ethnic identity was theatricalized even as it moved from stage to print By the early nineteenth century Anglo Irish and Scottish novelists attempted to deconstruct the theater's ethnic stereotypes while reimagining the theatricality of interactions between English and ethnic characters An important shift took place as the novel's cross ethnic love plot replaced the stage's caricatured male stereotypes with the beautiful ethnic heroine pursued by an English hero *The Athenaeum* ,1855 *Athenaeum and Literary Chronicle* ,1855 **The Bibliophile Library of Literature, Art and**
