The Sceptical Feminist (RLE Feminist Theory) Janet Radcliffe Richards, 2012-11-12 A systematic and original study of feminist issues The Sceptical Feminist fights a battle on two fronts against the view that little or nothing is wrong with women's position and at the same time against much current feminist dogma It is written by a philosopher who in the tradition of John Stuart Mill's classic *The Subjection of Women* avoids the psychological and sociological speculation characteristic of much recent feminism and concentrates on the analysis of arguments By these means she constructs a powerful and often unexpected case for radical change in the position of women as well as for a change of attitude among many feminists From her analysis Janet Radcliffe Richards argues that positive discrimination in favour of women is essential for justice that traditional sexual roles never had anything to do with beliefs about each sex's capabilities that current abortion practice reflects a disguised wish to punish women's sexual activity that women's work is rightly little valued and that traditional ideals of femininity are inherently pernicious But she also argues that a movement for sexual justice cannot take the woman's side in everything that feminism should not be thought of as the primary struggle that dismissing male logic and science will undermine feminists' own intentions that the state should not subsidise motherhood that ever available crèches would be disastrous for women that there is no inherent degradation in prostitution and that contempt for beauty and adornment has nothing to do with feminism This is a book for feminists for their critics and for students of moral political and social philosophy

Approaching Philosophy of Religion Anthony C. Thiselton, 2018-01-16 Encountering philosophy of religion for the first time we are like explorers arriving on an uncharted coastline This introduction from Anthony Thiselton is divided into three parts first mapping the main approaches then introducing us to the major ideas and thinkers and finally giving concise explanations of all the words and phrases readers need to know **Work-Lifestyle Choices in the 21st Century**

Catherine Hakim, 2000-11-02 In this book Hakim presents a new multi disciplinary theory for explaining and predicting current and future patterns of women's choice between employment and family work Preference theory is the first theory developed specifically to explain women's behaviour and choices As such it constitutes a major break from male centred theorizing to date in sociology and economics Preference theory is grounded on the substantial body of new research on women's work and fertility that has flourished within feminist scholarship It identifies five major historical changes that collectively are producing a qualitatively new scenario for women in prosperous societies in the 21st century Throughout the analysis the USA and Britain illustrate what the new scenario means for women how it alters their preferences and work lifestyles choices Hakim also reviews research evidence on contemporary developments across Europe Canada Australia Japan and the far East to develop a new theory that is genuine international in perspective **Evolution, Feminism, and**

Romantic Fiction Ania Grant, 2025-08-14 Romantic fiction has long been dismissed as trivial and denounced for peddling supposedly oppressive patriarchal myths of heterosexual love and marriage Despite such criticism the popularity of romantic fiction has only increased in recent decades Drawing on research from the evolutionary sciences Ania Grant proposes that

narrative patterns of romantic stories and their enduring appeal reflect the importance of love as a fundamental human drive. She examines two of the most successful and critically scrutinized romantic narratives of the past 200 years: Jane Austen's classic novel *Pride and Prejudice* and the hit television series *Sex and the City* and argues that such texts simulate the cognitive and emotional complexities of mate choice, one of the most consequential decisions from both a biological and a cultural perspective. Her biocultural analysis aligns the interpretation of romantic fiction with the feminist ideals of female autonomy and gender equality. It also suggests that positive identification with romantic heroines gives audiences the hope and energy to pursue the transformation of gender relations in real life. The book will be of interest to anyone who ever wondered why so many women and some men around the world are enthralled by romantic stories. It will also appeal to anyone who has ever been inspired by romantic happy endings to strive for a world in which men and women love and cooperate with each other even if it seems like a utopian ideal while the war of the sexes rages on.

Fashion Cultures Stella Bruzzi, Pamela Church Gibson, 2013-10-18 From the catwalk to the shopping mall, from the big screen to the art museum, fashion plays an increasingly central role in contemporary culture. *Fashion Cultures* investigates why we are so fascinated by fashion and the associated spheres of photography, magazines, and television and shopping. *Fashion Cultures* re-addresses the fashionable image, considering the work of designers from Paul Smith to Alexander McQueen and Hussein Chalayan; investigates the radicalism of fashion photography from William Klein to Corinne Day; considers fashion for the unfashionable body; the old and the big; football and fashion; and geographies of style. It explores the relationship between fashion and the moving image in discussions of female cinema icons from Grace Kelly to Gwyneth Paltrow and iconic male images from Cary Grant to Malcolm X and Mr. Darcy that have redefined notions of masculinity and cool. It makes a significant intervention into contemporary gender politics and theory, exploring themes such as spectacle, masquerade, and the struggle between fashion and feminism.

Secular Religions Tamás Nyirkos, 2024-08-06 *Secular Religions: The Key Concepts* provides a concise guide to those ideologies, worldviews, and social, political, economic, and cultural phenomena that are most often described as the modern counterparts of traditional religions. Although there are many other terms in use—quasi, pseudo, ersatz, political, civil, etc.—it is secular religion that best expresses the problematic nature of all such descriptions, which maintain that modern belief systems and practices are secular on the one hand and religious on the other. Today the topic is as popular as ever, and secular religions are discovered far and wide. Hence a critical summary is urgently necessary. The juxtaposed title is itself an expression of ironic distance. The book emphasizes inherent tensions of relevant literature in a critical and informative fashion. The author provides over 100 entries, from abortion to wokeness, as well as a detailed introduction which gives an overview of the different definitions of religion and secular religion, as well as the history of secular religious comparisons. The main text reconstructs the argument of several key works on each given topic, while lists of sources for further reading are provided at the end of each entry. This book provides a clear introduction to secular religions and will appeal to

researchers and students of religious studies political philosophy political theology the history of ideologies and cultural studies
