Thinkers of Our Time Francis Dunlop, 1991 *The Philosopher's Index*, 1995 Vols for 1969 include a section of abstracts
Whitaker's Book List, 1991 Values in Education and Education in Values Mark Halstead, Monica J. Taylor, 2005-10-26
This work provides an analysis of how schools can influence the developing values of young people The authors first examine from the perspective of educationalists and policy makers values within contemporary education before focusing on the values of pupils and schools *The Salisbury Review*, 1996 **The Life and Thought of Aurel Kolnai** Francis Dunlop, 2017-11-22 This title was first published in 2002 I sincerely believe that Dr Kolnai is one of the most original and stimulating thinkers in the field of political philosophy alive today Karl Popper Kolnai's moral and political thought was developed against the background of Liberal and then Bolshevik revolutions in Hungary the gradual move towards fascism in twenties and thirties Vienna and the progress of the Second World War as seen from the USA Born a Jew he became a Roman Catholic and lived successively in Hungary Austria France the USA Canada and England He remained throughout his extraordinary life a passionate believer in reason and common sense and the sworn enemy of all philosophical and political systems Study of Kolnai has been hampered by political developments his own peripatetic life and the fact that his writings appeared in five different languages yet interest in Kolnai is now growing This book offers the first comprehensive picture of Kolnai's complete works and life Dunlop presents Kolnai the man in his social and political setting and offers an accessible exploration of all his writings whether published or not including translated passages from papers and letters in Kolnai's various languages Including a selective bibliography of Kolnai's works this book presents an important study of this unique political and moral philosopher showing his relevance in contemporary philosophical thought *Thinkers of Our Time* Francis Dunlop, 1991-01-01 The British National Bibliography Arthur James Wells, 1992 JBSP British Society for Phenomenology, 1978 **Nova Et Vetera**, 2007 The Downside Review, 1981 **Arts & Humanities Citation Index**, 1982 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world's leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals The Mind of Max Scheler Manfred S. Frings, 1997 This book is designed to fill a long standing gap in the general literature of 20th century philosophy in that it offers a comprehensive view of the philosophy of Max Scheler 1874 1928 and opens up substantial discussions that have hitherto been largely overlooked The book is solely based on the original texts of the German Collected Edition as well as posthumous and untranslated materials References to English translations have been made whenever available The Mind of Max Scheler familiarizes the reader with strains of European thought that are rapidly gaining interest in the Americas Asia and Europe itself Already the pivotal questions Who are we What is a human being reveal the relevance Scheler's thought has to the self questioning stance that appears to mark this century's philosophy as a whole He also presents us with a cosmic view of what it means to be human and one is amazed at

the scope of his approach that goes beyond his better known European contemporaries Heidegger Husserl Ortega or philosophers of our present time He addresses spurious value patterns that suffuse the age of capitalism and provides answers among them the gleaning of historical textures that are emerging toward the future and through which a lingering awareness of the eternal will eventually surface from the depths of human existence **Max Scheler** Manfred S. Frings,1996 **Max Scheler, 1874-1928** John Raphael Staude,1967
