Scholary Editing In The Computer Age Theory And Practice:

Scholarly Editing in the Computer Age Peter L. Shillingsburg,1996 A practical introduction to the aims controversies and procedures of scholarly editing   Scholarly Editing in the Computer Age Peter L. Shillingsburg,1986   **Scholarly Editing in the Computer Age** Peter L. Shillingsburg,1986-01-01   **Scholarly Editing in the Computer Age** Peter L. Shillingsburg,1984   *Digital Scholarly Editing* Elena Pierazzo,2016-03-16 This book provides an up to date coherent and comprehensive treatment of digital scholarly editing organized according to the typical timeline and workflow of the preparation of an edition from the choice of the object to edit the editorial work post production and publication the use of the published edition to long term issues and the ultimate significance of the published work The author also examines from a theoretical and methodological point of view the issues and problems that emerge during these stages with the application of computational techniques and methods Building on previous publications on the topic the book discusses the most significant developments in digital textual scholarship claiming that the alterations in traditional editorial practices necessitated by the use of computers impose radical changes in the way we think and manage texts documents editions and the public It is of interest not only to scholarly editors but to all involved in publishing and readership in a digital environment in the humanities   **Traces of the Old, Uses of the New** Amy E. Earhart,2015-10-30 Mapping the history of digital literary scholarship Earhart stakes a claim for discipline specific histories of digital study   **Electronic Text** Kathryn Sutherland,1997 The electronic presentation of text has revolutionized the understanding and use of literary evidence Formerly readers and editors were obliged to choose one edition of a text in book form to work with and to treat other versions as ancillary Now electronic editions of a text can incorporate all the various versions and revisions This allows unconstrained access to a much greater range of information This collection considers the role of computerized technology in contributing to the interpretation and editing of texts from both practical and theoretical perspectives The contributors investigate the ways in which the treatment of texts and the idea of a text are affected by current and prospective advances in electronic production and reproduction   *Textuality and Knowledge* Peter Shillingsburg,2017-06-09 In literary investigation all evidence is textual dependent on preservation in material copies Copies however are vulnerable to inadvertent and purposeful change In this volume Peter Shillingsburg explores the implications of this central concept of textual scholarship Through thirteen essays Shillingsburg argues that literary study depends on documents the preservation of works and textual replication and he traces how this proposition affects understanding He explains the consequences of textual knowledge and ignorance in teaching reading and research and in the generous impulses behind the digitization of cultural documents He also examines the ways in which facile assumptions about a text can lead one astray discusses how differing international and cultural understandings of the importance of documents and their preservation shape both knowledge about and replication of works and assesses the dissemination of information in the context of ethics and social

justice In bringing these wide ranging pieces together Shillingsburg reveals how and why meaning changes with each successive rendering of a work the value in viewing each subsequent copy of a text as an original entity and the relationship between textuality and knowledge Featuring case studies throughout this erudite collection distills decades of Shillingsburg s thought on literary history and criticism and appraises the place of textual studies and scholarly editing today   Annotation in Eighteenth-Century Poetry Michael Edson,2017-10-18 Recent years have witnessed a growing fascination with the printed annotations accompanying eighteenth century texts Previous studies of annotation have revealed the margins as dynamic textual spaces both shaping and shaped by diverse aesthetic historical and political sensibilities Yet previous studies have also been restricted to notes by or for canonical figures they have neglected annotation s relation to developments in reading audiences and the book trade and they have overlooked the interaction even tension between prose notes and poetry a tension reflecting eighteenth century views of poetry as aesthetically superior to prose Annotation in Eighteenth Century Poetry addresses these oversights through a substantial introduction and eleven essays analyzing the printed endnotes and footnotes accompanying poems written or annotated between 1700 and 1830 Drawing on methods and critical developments in book history and print culture studies this collection explores the functions that annotation performed on and through the printed page By analyzing the annotation specific to poetry these essays clarify the functions of notes among the other paratexts including illustrations by which scholars have mapped poetry s relation to the expanding book trade and the class specific production of different formats Because the reading and writing of poetry boasted social and pedagogical functions that predate the rise of the note as a print technology studying the relation of notes to poetry also reveals how the evolving layout of the eighteenth century book wrought significant changes not only on reading practices and reception but on the techniques that booksellers used to make new poems steady sellers and antiquarian discoveries legible to new readers Above all analyzing notes in poetry volumes contributes to larger inquiries into canon formation and the rise of literary studies as a discipline in the eighteenth century   **Publishing in Journals on the Family** Roma S. Hanks,Linda Matocha,Marvin B. Sussman,1993 Here is a handy reference that helps beginning scholars learn the best strategies for getting published Publishing in Journals on the Family contains varied perspectives from scholars at different career stages and from editors of major publication outlets This combined knowledge from experts on both ends of publishing is invaluable to writers wishing to learn the ins and outs of getting published The book provides readers with important information necessary to help them systematically plan a productive scholarly career while avoiding common publication pitfalls Publishing in Journals on the Family includes the results of two surveys The first presents the responses of productive scholars in the early or middle stages of their careers to questions about their choices of publication outlets In the second survey journal editors share information about publication criteria and changes in the focus of social science publications and give helpful hints to beginning authors The book also contains articles by a number of senior scholars who discuss their academic publication

histories providing readers with real life examples of successful publishing careers A bibliography of sources for tips on writing and publishing concludes the volume Although the voices in the book are varied they are unified in their calling for careful scholarship relevant research and clear writing Graduate students professionals such as therapists social workers and consultants and academicians including teachers and researchers will find this book extremely helpful in their publishing lives **Doing Digital Film History** Sarah-Mai Dang,Tim van der Heijden,Christian Gosvig Olesen,2024-12-30 How has the digital turn shaped the practices of film historical research and teaching While computational approaches have been used by film historians since the 1960s and 1970s the arrival and use of digital tools and methods in recent decades has fundamentally changed the ways we search analyze interpret present and so think and write about film history from digital archival and curatorial practices data driven search and analysis of film historical collections to the visualization and dissemination of film historical materials online While film historians have increasingly embraced the new possibilities brought by digital technologies their practical epistemological and methodological implications need further exploration What opportunities does the digitization of film historical sources provide for film historians What new questions can be raised by using digital methods What new perspectives emerge from analyzing interpreting and visualizing film historical data at the levels of both close and distant or scalable reading and viewing By focusing on the concepts tools and practices of digital film historiography this edited volume aims to contribute to a better understanding and critical reflection on the changes and continuities of doing film history in the digital age **Much Labouring** David Holdeman,1997 Explores Yeats s engagement with issues of gender and class **Publishing Blackness** George Hutchinson,John Young,2018-05-09 The first of its kind this volume sets in dialogue African Americanist and textual scholarship exploring a wide range of African American textual history and work **The Textuality of Soulwork** Tim Hunt,2014-03-25 A new critical perspective on Kerouac s work and his textual practices **The Editorial Gaze** Paul Eggert,Margaret Sankey,2014-04-04 This collection of original essays brings international and multidisciplinary perspectives to the problem of how to understand and practice editorial mediation How does editing alter what it seeks to represent How does it condition the relationship between texts and readers The different concerns shared by editors of a variety of genres literary and otherwise emerge here as constructive new approaches to the theory and practice of editing are explored The essays make a concerted attempt to assess the implications of postmodern thought on one of the oldest and most fundamental cultural activities editing The section on theory covers such important subjects as editorial responsibility the death of the author and the nature of the authorial voice The practice section covers actual editing situations in various literary areas and in musicology recorded music and the preservation of oral literature The multidisciplinary volume will find its readers among students of textual criticism literature music and folklore as well as any readers of postmodern criticism **Manuscripts, Texts, Theology** David C.
