Conley, 2003-01-01 This book provides valuable insights into a dynamic structural change that is being experienced but not completely understood by educators and policymakers alike the transfer of power from the local to the state and national levels What will become of our public schools in this new era of leadership The author traces the origins of this process examines the implications and considers where these changes might lead This extremely timely volume Explores the direction of education policy and the ways in which both policymakers and educators can adapt and provide leadership in this new landscape Offers a concise accessible summary of a multitude of specific programs and policies helping us to think more systematically about the shifts in power relationships among education governance levels Presents an outline of actions that can be taken at the local state and national levels to help facilitate better working relationship and to help improve schools Examines the new federal role and recent federal legislation including the No Child Left Behind Act of 2001

Markets for Schooling Nick Adnett, Peter Davies, 2002-01-10 An economic analysis of schooling markets is developed emphasizing both the strengths and weaknesses of orthodox analyses This publication is designed to be accessible to all those concerned with education and economics

Policy Entrepreneurs and School Choice Michael Mintrom, 2000-04-26 Rapid and controversial the spread of school choice initiatives across the United States has radically changed political debate about public education In this book Michael Mintrom explores the complex world of open enrollment policies charter schools and voucher plans to reveal how and why school choice has become a major issue and he draws important conclusions about how innovative individuals can spur significant change in the policy arena Policy entrepreneurs individuals who take up a cause and make it part of the political agenda have largely remained background figures without clear definition in the

policymaking literature This book is the first comprehensive and systematic treatment of the concept of policy entrepreneurship providing an important foundation for explaining how policy proposals are initiated considered and adopted Mintrom uses the emergence of school choice in state politics to examine how policy change originates He shows how policy entrepreneurs have been instrumental in placing school choice onto state legislative agendas despite the lack of compelling evidence about its merits and how they use social networks reframe policy issues and attempt to shift the sites of policy debate Blending innovative theory with both qualitative and quantitative investigation Mintrom explains how energetic individuals made school choice a real choice In doing so he changes our broader understanding of how policy is formed

NBER Reporter National Bureau of Economic Research,1997 **Earning and Learning** Susan E. Mayer,Paul E. Peterson,2010-12-01 A Brookings Institution Press and Russell Sage Foundation publication Education is one of the largest sectors of the U S economy yet scholars educators policymakers and parents do not agree about what the money spent on education really buys In particular they do not agree on how much education improves children s ability to learn or whether the things children learn in school truly improve their chances for success as adults If schooling increases how much students know and what they know does pay off later then it is important to ask what schools can do to increase students learning and earning The essays in this book report estimates of the effects of learning on earnings and other life outcomes They also examine whether particular aspects of schooling such as the age at which children begin school classroom size and curriculum or structural reform such as national or statewide examinations or school choice affect learning Taken together their findings suggest that liberals are correct in saying that more investment is needed in early education that class sizes should be further reduced and that challenging national or state standards should be established But they also provide support for conservatives who ask for a more demanding curriculum and greater school choice Contributors include John Bishop Eric Hanushek James Heckman Christopher Jencks Caroline Minter Hoxby Fred Mosteller and Christopher Winship

African Americans in the U.S. Economy Cecilia A. Conrad,John Whitehead,Patrick L. Mason,James Stewart,2005-02-09 Over the last several decades academic discourse on racial inequality has focused primarily on political and social issues with significantly less attention on the complex interplay between race and economics *African Americans in the U S Economy* represents a contribution to recent scholarship that seeks to lessen this imbalance This book builds upon and significantly extends the principles terminology and methods of standard economics and black political economy Influenced by path breaking studies presented in several scholarly economic journals this volume is designed to provide a political economic analysis of the past and present economic status of African Americans The chapters in this volume represent the work of some of the nation s most distinguished scholars on the various topics presented The individual chapters cover several well defined areas including black employment and unemployment labor market discrimination black entrepreneurship racial economic inequality urban revitalization and black economic development The book is written in a style free of the technical

jargon that characterizes most economics textbooks While the book is methodologically sophisticated it is accessible to a wide range of students and the general public and will appeal to academicians and practitioners alike *Youth Record*, 1996

Encyclopedia of Educational Reform and Dissent Thomas C. Hunt, 2010-01-20 The history of American education is replete with educational reform and to a lesser extent educational dissent Consider the present you have various forms of privatization school choice the No Child Left Behind act home schooling value added accountability alternative teacher preparation programs on line instruction etc This range of activity is not exceptional For instance consider the past progressive education open education the junior high school the middle school Life Adjustment education career education vocational education the comprehensive high school school to work year round schooling behavioral objectives proficiency exams high stakes testing whole language learning packages and self paced instruction modular scheduling site based management all presented as the way to reform American schools at least in part Then you have the reformers themselves such as John Dewey George Counts Herbert Kohl John Holt Charles Silberman Admiral Hyman Rickover James Bryant Conant all the way back to Horace Mann himself Dissenters and dissenting movements while not as numerous and certainly not as well known in educational circles count the various faith based schools and individuals such as Archbishop Hughes of New York Clearly this is an area rich in ideas rife with controversy and vital in its outcome for individuals and the nation as a whole And yet strangely enough there exists no major encyclopedia bringing the varied strands together in one place as a ready reference for scholars teachers school administrators and students studying to enter the educational profession This two volume work is intended to be that authoritative resource Key themes and topics include biographies of reformers and dissenters theoretical and ideological perspectives key programs and legislation judicial verdicts impacting educational change in America the politics and processes of educational reform and policy making dissent and resistance to reform technology s impact on educational reform A Reader s Guide in the front matter groups entries around such themes to help readers find related entries more easily
