Behaviour outlines the beliefs and values that underpin the guidance approach to managing the behaviours of children from birth to eight years of age. Rather than punishing them for lacking skills, guidance teaches young children self-regulation skills so that they can behave considerately. The author provides practical strategies that both meet children's needs and safeguard the rights of surrounding adults and children. These methods include listening, being assertive, giving positive instructions, solving problems collaboratively, and coaching children to self-regulate their emotions and impulses. The text also offers advice on responding to many common challenges, including separation distress, meltdowns, aggression, and social withdrawal. Finally, the book suggests how educators can provide educational and behavioural support for children with atypical development and describes how to foster effective relationships with parents whose children display challenging behaviours. Dr Louise Porter powerfully argues that behaviour guidance is the most effective approach to working with young children and reflects the deepest values of early childhood education and care.
