Hidden Intercourse Wouter J. Hanegraaff, Jeffrey Kripal, 2008-12-31 From rumours about gnostic orgies in antiquity to the explicit erotic symbolism of alchemical texts from the subtly coded eroticism of medieval kabbalah to the sexual magic practiced by contemporary occultists and countercultural translations of Asian Tantra the history of Western esotericism is rich in references to the domains of eros and sexuality This volume which brings together an impressive array of top level specialists is the first to analyze the eroticism of the esoteric without sensationalism or cheap generalizations but on the basis of expert scholarship and attention to textual and historical detail While there are few other domains where the imagination may so easily run wild the various contributions seek to distinguish fact from fiction only to find that historical realities are sometimes even stranger than the fantasies In doing so they reveal the outlines of a largely unknown history spanning more than twenty centuries

The Hidden Church of the Holy Graal Arthur Edward Waite, 2014-07-10 In the 13th century over a few decades a huge literature emerged around an unlikely tale Survivors of the core of early Christianity make

The RIP James Bèyor, 2016-06-03 The Quest To pass through conscript meaning enter the emotional sensorial parallel feel deeply and bring forth the full essence of whole consciousness Born With Five Perfectly Balanced Senses the human mind is bathed in dynamic sensing In mathematical terms this represents five to the fifth power conscious awareness Are you aware that the creature being exists within an encoded emotional first voice that is immediately activated at birth Is Fear Your Friend or Enemy When fear is your enemy you lose your essence Did you know that knowledge has no essence Do You Think Your Feelings Belong To You They do not via psychological implant losses or gains are predetermined circumstances governed by the word sanction given to others What Makes The Idea Of Truth a Hypocrisy Can you define fact as anything more than mental impasse or define truth as more than paradoxical conscription The Word Language is a mono dimensional syllabus and noun verb inversion that is unfit for an essenced creature the human being Are you using your first voice to access total consciousness rather than remembering performance rated acts How do you stimulate and use this natural treasure Once you learn how to enter the world of emotion your feelings will evolve and take flight The RIP will remain as one of the most important fresh and poignant works to eclipse this century Until you read The RIP who and what you are will never be as clear

American Secrets José Liste-Noya, Eduardo Barros-Grela, 2011-09-16 Predicated upon the principles of political freedom cultural openness religious tolerance individual self reliance and ethnic diversity the United States of America has been tempted recurrently by the lures of the secret American Secrets explores this political historical and cultural phenomenon from many often surprisingly overlapping angles in these analyses of the literary and cultural uses and abuses of secrecy within a democratic culture Through analyses of diverse literary works and cultural manifestations from Mark Twain's anti imperialist prophecies to 9 11 conspiracy theories from the traumas of the Vietnam war to the homophobia of the American military establishment from the unresolved dilemmas of nuclear politics to the secret ecologies shunted aside by the exploitation of the environment from the questionings of national identity on the ethnic and trans sexual margins to the confessional modes of poetry and the poetics of the unspeakable and unrepresentable these essays reveal the politics within the poetics and indissociably the poetics fueling the politics of secrecy in its ambivalent deployment Secrecy often seems to be a question without an answer or an answer that either seems to beg the question or to be a question itself These essays address this paradox with their own questioning explorations In answering such questions the volume as a whole provides an illuminating overview of the pervasiveness of the secret and its modalities in American culture while also dealing specifically with the poetics of the secret in its various historically recurrent literary manifestations
