Introduction **Rabindranath Tagore's Journey as an Educator** Mohammad A. Quayum, 2022-12-20 This book looks at Rabindranath Tagore's experiments and journey as an educator and the influence of humanistic worldviews, nationalism and cosmopolitanism in his philosophy of education. It juxtaposes the educational systems and institutions set up by the British colonial administration with Tagore's pedagogical vision and schools in Santiniketan, West Bengal, Brahmacharya Ashram, 1901, Visva Bharati University, 1921, and Sriniketan Institute of Village Reconstruction, 1922. An educational pioneer and a poet-teacher, Tagore combined nature and culture, tradition and modernity, East and West in formulating his educational methodology. The essays in this volume analyse the relevance of his theories and practice in encouraging greater cultural exchange and the dissolution of the walls between classrooms and communities. This book will be useful for scholars and researchers of education, Tagore studies, literature, cultural studies, sociology of education, South Asian studies, and colonial and postcolonial studies.

The University Unthought Debaditya Bhattacharya, 2018-09-03 Why is it important to have a revolutionary critical pedagogy? What are the new interdisciplinary engagements possible within the university? What will it be like to live and learn in this university of the future? Drawing on these essential questions, this volume explores the political future(s) of the university. It does not take a simplistic recourse to the tenets of liberal democracy but seeks a more engaged positioning of the university space within everyday practices of the social. It cross-examines the history of this ideal university's relationship with the banal everyday, the apolitical outside, and what exceeds intellectual reason to finally question if such historicizing of the university is necessary at all. Along with its companion, *The Idea of the University: Histories and Contexts*, this brave new intervention makes a compelling foray into the political future(s) of the university. It will be of interest to academics, educators, and students of the social sciences and humanities, especially education. It will also be of use to policy makers and education analysts and be central to the concerns of any citizen.

The Bangladesh Environmental Humanities Reader Munasir Kamal, Mohammad Tanzimuddin Khan, Samina Luthfa, 2022-08-23 This volume analyses Bangladesh's human-nature-environment relationships in terms of development, victimhood, environmental injustices, and resistance of the marginalized. It demonstrates how the popular GDP-based economic growth model helps governments undertake development projects threatening the environment and livelihood of the poor while benefiting the affluent. It represents the extant environmentalism in the literary works in Bangla and tales of pollution, depletion, and human-nature-environment symbiosis that shows ways to resist victimhood. Against current environmental challenges and other environmental issues, this volume presents the epitome of how politics, biodiversity, and technology meet in many cross-cutting pathways.
