never saw himself as a Hartford poet and kept gravitating toward New York for nearly all things that mattered to him privately and poetically visits to galleries and museums theatrical and musical performances intellectual and artistic gatherings shopping sprees and gastronomical indulgences Recent criticism of the poet has sought to understand how Stevens interacted with the literary artistic and cultural forces of his time to forge his inimitable aesthetic with its peculiar mix of post romantic responses to nature and a metropolitan cosmopolitanism This volume deepens our understanding of the multiple ways in which New York and its various aesthetic attractions figured in Stevens life both at a biographical and poetic level

English Literature, Its History and Its Signi the English-Speaking World William J. Long, 2016-09-05 This book which presents the whole splendid history of English literature from Anglo Saxon times to the close of the Victorian Era has three specific aims The first is to create or to encourage in every student the desire to read the best books and to know literature itself rather than what has been written about literature The second is to interpret literature both personally and historically that is to show how a great book generally reflects not only the author s life and thought but also the spirit of the age and the ideals of the nation s history The third aim is to show by a study of each successive period how our literature has steadily developed from its first simple songs and stories to its present complexity in prose and poetry To carry out these aims we have introduced the following features 1 A brief accurate summary of historical events and social conditions in each period and a consideration of the ideals which stirred the whole nation as in the days of Elizabeth before they found expression in literature 2 A study of the various literary epochs in turn showing what each gained from the epoch preceding and how each aided in the development of a national literature 3 A readable biography of every important writer showing how he lived and worked how he met success or failure how he influenced his age and how his age influenced him 4 A study and analysis of every author s best works and of many of the books required for college entrance examinations 5 Selections enough especially from earlier writers and from writers not likely to be found in the home or school library to indicate the spirit of each author s work and directions as to the best works to read and where such works may be found in inexpensive editions 6 A frank untechnical discussion of each great writer s work as a whole and a critical estimate of his relative place and influence in our literature

Baudelaire: Poems Charles Baudelaire, 2015-02-17 Modern poetry begins with Charles Baudelaire 1821 67 who employed his unequalled technical mastery to create the shadowy desperately dramatic urban landscape populated by the addicted and the damned which so compellingly mirrors our modern condition Deeply though darkly spiritual titanic in the changes he wrought Baudelaire looms over all the work great and small created in his wake
