*Witnesses to Permanent Revolution: The Documentary Record* Richard B. Day,Daniel Gaido,2009-02-23 The theory of Permanent Revolution has been associated with Leon Trotsky for more than a century since the first Russian Revolution in 1905 Trotsky was the most brilliant proponent of Permanent Revolution but by no means its sole author The documents in this volume most of them translated into English for the first time demonstrate that Trotsky was one of several participants in a debate from 1903 7 that involved numerous leading figures of Russian and European Marxism including Karl Kautsky Rosa Luxemburg Franz Mehring Parvus and David Ryazanov This volume reassembles that debate assesses it with reference to Marx and Engels and provides new evidence for interpreting the formative years of Russian revolutionary Marxism

**Shanghai Mundane** Lei Ping,2025-09-18 This book offers a new critical intervention into the studies of the paradox of Chinese socialism Centering on the unremovable Shanghai bourgeoisie and middle class the book brilliantly discovers Chinese society s persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology from the Mao era to the Xi era Shanghai Mundane offers a new critical intervention into the studies of the paradox of Chinese socialism Through the lens of contested state

society relations the book challenges conventional China Studies by repositioning Shanghai as the key to decode the protracted ideological warfare between socialism and capitalism Based on significant archival ethnographic and theoretical evidence unearthed from the distinct cases of Shanghai bourgeoisie and middle class Lei Ping discovers the city's persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology throughout the entire history of the People's Republic of China Ping argues that despite the socialist remolding of capitalist industry and commerce the post 1949 Chinese state failed to eradicate bourgeois heritage in the domain of everyday life in the Mao era which ironically contributed to its controversial policy reversals in the post Mao era from Deng to Xi What lies at the heart of the major intellectual conundrum namely the survival and revival of bourgeois sentiments is what Ping calls the unremovable Shanghai mundane This captivating and provocative account sheds new light on understanding the larger questions as to the crisis ridden practices of Chinese socialism and the *raison d'être* of the Chinese Communist Party in the twenty first century

**The Politics of Everybody** Holly Lewis, 2022-02-10 The Politics of Everybody examines the production and maintenance of the terms man woman and other within the current political moment the contradictions of these categories and the prospects of a Marxist approach to praxis for queer bodies Few thinkers have attempted to reconcile queer and Marxist analysis Those who have propose the key contested site to be that of desire sexual expression This emphasis on desire Lewis argues is symptomatic of the neoliberal project and has led to a continued fascination with the politics of identity By arguing that Marxist analysis is in fact most beneficial to gender politics within the arena of body production categorization and exclusion Lewis develops a theory of gender and the sexed body that is wedded to the realities of a capitalist political economy Boldly calling for a new materialist queer theory Lewis defines a politics of liberation that is both intersectional transnational and grounded in lived experience With a new preface Lewis discusses the argument for an explicitly Marxist understanding of trans rights an understanding grounded in solidarity and materialist scientific queer analysis She also discusses the new wave of Marxist Social Reproduction Theory that has emerged since the first edition family abolition and the complexities of building an internationalist Marxist movement that is in solidarity with queer and trans struggles attentive to women's realities and one that refrains from imposing Western definitions particularly American Anglo definitions onto global movements for liberation

Marx and Singularity Luca Basso, 2012-11-23 In this work Luca Basso analyses how the development of Marx's thought from the early writings to the Grundrisse can be understood as a search for the realisation of workers singularities

**Filmosophy** Daniel Frampton, 2006-12-12 Filmosophy is a provocative new manifesto for a radically philosophical way of understanding cinema It coalesces twentieth century ideas of film as thought from Hugo Münsterberg to Gilles Deleuze into a practical theory of film thinking arguing that film style conveys poetic ideas through a constant dramatic intent about the characters spaces and events of film Discussing contemporary filmmakers such as Béla Tarr and the Dardenne brothers this timely contribution to the study of film and philosophy will provoke debate among audiences and filmmakers alike
