**Edward Sapir □ Appraisals of his life and work** E.F.K. Koerner, 1984-01-01 To commemorate the 100th anniversary of the birth of Edward Sapir 1884 1939 this volume brings together a number of papers by distinguished North American scholars appraising the life and work of the world renowned anthropologist and linguist It includes an introduction by the editor a full bibliography of Sapir s scientific writings a detailed index of names and many photographs and fac similes Among the contributors are Ruth Benedict Leonard Bloomfield Franz Boas Joseph Greenberg Mary Haas Zellig Harris A L Kroeber Robert H Lowie David Mandelbaum Morris Swadesh and C F Voegelin **The Logic of Relativism** Mark Ressler, 2013-08-03 This in depth study aims to develop a rigorous analysis of the nature and the logic of relativism in general as a basis for evaluating the charge of self refutation against relativism It develops a general definition of relativism that distinguishes relativism from structurally similar notions such as conventionalism and contextualism On the basis of this definition it formulates a series of logical systems that each might be presented as candidates for the logic of relativism Each system is evaluated to see whether it can sustain the charge of self refutation The result is that one of these systems can be proven not to be self refuting even under increasingly stronger challenges Consequently this study argues that even global relativism can be demonstrated not to refute itself despite the long history of arguments to the contrary **History of the Language Sciences / Geschichte der Sprachwissenschaften / Histoire des sciences du langage. 2. Teilband** Sylvain Auroux, E.F.K. Koerner, Hans-Josef Niederehe, Kees Versteegh, 2008-07-14 Volume 2 treats in great detail and at times quite innovatively the individual stages of development of the study of language as an autonomous discipline from the growing awareness in 17th and 18th century Europe of genetic relationships among a host of languages to the establishment of comparative historical Indo European linguistics in the 19th century from the generation of the Schlegels Bopp Rask and Grimm to the Neogrammarians and the application of the comparative method to non Indo European languages from all over the globe Typological linguistic interests first synthesized by Humboldt as well as the development of various other non historical endeavours in the 19th and the first half of the 20th century such as language and psychology semantics phonetics and dialectology receive ample attention **Visions of Culture** Jerry D. Moore, 2008-07-25 This new edition of Jerry D Moore s Visions of Culture presents introductory anthropology students with a brief readable and balanced treatment of theoretical developments in the field The key ideas of major theorists are briefly described and unique to this textbook linked to the biographical and fieldwork experiences that helped shape their theories The impact of each scholar on contemporary anthropology is presented along with numerous examples quotes from the theorists writings and a description of the broader intellectual setting in which these anthropologists worked **Islands of Truth** Daniel Clayton, 2011-11-01 In Islands of Truth Daniel Clayton examines a series of encounters with the Native peoples and territory of Vancouver Island in the late eighteenth and early nineteenth centuries Although he focuses on a particular region and period Clayton also meditates on

how representations of land and people and studies of the past serve and shape specific interests and how the dawn of Native Western contact in this part of the world might be studied 200 years later in the light of ongoing struggles between Natives and non Natives over land and cultural status Between the 1770s and 1850s the Native people of Vancouver Island were engaged by three sets of forces that were of general importance in the history of Western overseas expansion the West s scientific exploration of the world in the Age of Enlightenment capitalist practices of exchange and the geopolitics of nation state rivalry Islands of Truth discusses these developments the geographies they worked through and the stories about land identity and empire stemming from this period that have shaped understanding of British Columbia s past and present Clayton questions premises underlying much of present B C historical writing arguing that international literature offers more fruitful ways of framing local historical experiences Islands of Truth is a timely provocative and vital contribution to post colonial studies

Frontiers of Historical Imagination Kerwin Lee Klein,2023-11-15 The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein s analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropologists and literary critics have understood the story of America s origin and the way those understandings have shaped and been shaped by changing

conceptions of history The American West was once the frontier space where migrating Europe collided with Native America where the historical civilizations of the Old World met the nonhistorical wilds of the New It was not only the cultural combat zone where American democracy was forged but also the ragged edge of History itself where historical and nonhistorical defied and defined each other Klein maintains that the idea of a collision between people with and without history still dominates public memory But the collision he believes resounds even more powerfully in the historical imagination which creates conflicts between narration and knowledge and carries them into the language used to describe the American frontier In Klein s words We remain obscurely entangled in philosophies of history we no longer profess and the very idea of America balances on history s shifting frontiers The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein s analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropol

**Essays on Linguistic Realism** Christina Behme,Martin Neef,2018-07-26 This book contains new articles by leading philosophers and linguists discussing a promising philosophical framework distinct from currently dominant ones Linguistic Realism As opposed to Nominalism and Chomskyian Conceptualism this approach distinguishes between use of language knowledge of language and language as such The latter is conceived as part of the realm of abstract objects The authors show how adopting Linguistic Realism overcomes entrenched problems with other frameworks and suggest that Linguistic Realism will best serve those interested in formal linguistics the cognitive dimension of natural language and linguistic philosophy The essays offer different perspectives on Linguistic Realism either supporting this paradigm or taking it as a starting point for developing modified conceptions of linguistics and for further tying linguistics to the kind of formal theories of sensory cognition that were pioneered in visual perception by David Marr whose work is predicated on exactly the object knowledge distinction made by Linguistic Realists
