From Administrative Authorisation to Private Law Jianfu Chen, 2023-07-24 This book is an in depth comparative study of the nature of civil and commercial law and of its development in the PRC It focuses on the very complex interrelations and interactions between Party and state policies and measures scholars theoretical efforts and the development of civil and commercial law especially the development of the institutions of legal personality and of property rights in the PRC It also analyses the underlying influences of foreign legal systems and legal theories as well as the difficulties experienced by Chinese law makers and scholars in applying these theories The book provides fresh insights into the role of law and the transformation of Chinese

civil and commercial law as now occurring in the PRC The book is a valuable reference source for scholars who wish to explore the fascinating subject of the transformation of civil and commercial law in contemporary China Selected Cases from the Supreme People's Court of the People's Republic of China China Institute of Applied Jurisprudence, 2024-01-16 This book includes focal and vital cases tried by presiding justices guiding cases from the Supreme People's Court and cases discussed at the Joint Meetings of Presiding Judges from various tribunals This book is divided into three sections including Cases by Justices Guiding Cases and Typical Cases which will introduce readers to Chinese legal processes legal methodology and ideology in an intuitive clear and accurate manner This book presents cases selected by the trial departments of the Supreme People's Court of China from their concluded cases In order to give full weight to the legal value and social function of cases from the Supreme People's Court and to achieve the goal of serving the trial practices serving economic and social development serving legal education and legal scholarship serving legal exchanges among Chinese and foreign legal communities and serving the rule of law in China the China Applied Jurisprudence Institute with the approval of the Supreme People's Court opts to publish Selected Cases from the Supreme People's Court of the People's Republic of China in both Chinese and English for domestic and overseas distribution **Chinese Law** Jianfu Chen, 2023-09-25 Law in particular its actual functioning in any given society is above all a part of the culture of that society a part of its historical political social and intellectual creation If a black letter approach towards law in the West is under increasing criticism it is particularly unhelpful if not misleading in understanding Chinese law its nature and developments Rather to understand Chinese law its nature and developments we need to examine the Chinese legal traditions the prevailing political and economic situations Party policies on economic reform and tolerance towards political liberalisation and scholarly discussions and debate This is the approach of this book Its aim is to put Chinese law in context to outline the nature and present status of its development and to analyse the meaning of the law within the Chinese context However this monograph does not ignore the practical needs for determining the precise contents of the black letter law either A study of this kind necessarily involves a process of topic selection However to avoid over generalisation and over simplification it also demands a considerable degree of comprehensiveness in coverage For this reason the book covers what the Chinese scholars term fundamental law and basic branches of law while other topics are covered because they are either crucial for the understanding of the law such as legal traditions in China or of practical importance such as foreign investment and trade Chapter One provides an historical background to traditional Chinese legal culture and modern law reforms The historical background of specific topics is examined as the topics are analysed in the following chapters Chapter Two deals with the changing fate of law under Communist rule Its focus is on the underlying factors and justifications for such changes Chapter Three introduces discussions on specific branches of law from public law constitutional law law making administrative law criminal law criminal procedure law to private law civil law family law contracts law on business entities and law on foreign

investment and trade Each of these is dealt with in a separate chapter After the analysis of these substantial topics certain conclusions are drawn which attempt to define the nature of Chinese law and its developments in present day China The Voice from China An CHEN,2014-07-08 In short the 24 selected and representative articles written in English by the author over the past 30 odd years mainly published in international leading journals and now collected and compiled in this monograph could be deemed the products of international academic debates They record reflect and embody the author's personal views on a number of contemporary basic issues in international economic law 2 Great Debates on Contemporary Economic Sovereignty 3 China's Strategic Position on Contemporary International Economic Order Issues 4 Divergences on Contemporary Bilateral Investment Treaty 5 Contemporary China's Legislation on Sino Foreign Economic Issues and 6 Contemporary Chinese Practices on International Economic Disputes Case Analysis The Economic Contract Law of China Pitman B. Taiwan and Chinese Nationalism Christopher Hughes,2013-04-15 For China Taiwan is next in line to be unified with the People's Republic after Hong Kong in 1997 China's claim on Taiwan is of great importance to the politics of Chinese Nationalism and is central to the dynamics of power in this most volatile of regions The democratic challenge from Taiwan is very potent and its status and identity within the international community is crucial to its survival Taiwan and Chinese Nationalism explores how Taiwan's status has come to be a symbol for the legitimacy of the Chinese regime in the evolution of Chinese nationalism It also demonstrates how this view has been challenged by demands for democratization in Taiwan The KMT regime is shown to have allowed sovereignty to be practised by the population of the island while maintaining the claim that it is a part of China The result is a post nationalist identity for the island in an intermediate state between independence and unification with the PRC **Buddhism and Law** Rebecca Redwood French,Mark A.
