Poetry and the Fate of the Senses Susan Stewart, 2002-01-20 What is the role of the senses in the creation and reception of poetry? How does poetry carry on the long tradition of making experience and suffering understood by others? With *Poetry and the Fate of the Senses* Susan Stewart traces the path of the aesthetic in search of an explanation for the role of poetry in culture. Herself an acclaimed poet, Stewart not only brings the intelligence of a critic to the question of poetry but the insight of a practitioner as well. Her new study includes close discussions of poems by Stevens, Hopkins, Keats, Hardy, Bishop, and Traherne of the sense of vertigo in Baroque and Romantic works and of the rich tradition of nocturnes in visual, musical, and verbal art. Ultimately she argues that poetry can counter the denigration of the senses in contemporary life and can expand our imagination of the range of human expression. *Poetry and the Fate of the Senses* won the 2004 Truman Capote Award for Literary Criticism in Memory of Newton Arvin administered for the Truman Capote Estate by the University of Iowa Writers Workshop. It also won the Phi Beta Kappa Society's 2002 Christian Gauss Award for Literary Criticism.

British Women Poets of the Long Eighteenth Century Paula R. Backscheider, Catherine E. Ingrassia, 2009-10-30 This anthology gathers 368 poems by 80 British women poets of the long eighteenth century. Few of these poems have been reprinted since originally published, and all are crucial to understanding fully the literary history of women writers. Paula R. Backscheider and Catherine E. Ingrassia demonstrate the enormous diversity of poetry produced during this time by organizing the poems in three broad and deliberately overlapping categories by genre, establishing that women wrote in all of the forms that men did with equal mastery and creativity; by theme, offering a revisionary look at the range of topics these writers addressed, including war, ecology, friendship, religion, and the stages of life; and by the poems' more specific focus on the women's experiences as writers. Backscheider and Ingrassia have selected poems that represent the best work of skilled poets, creating a wonderful mix of canonical and little-known pieces. They include the complete texts of longer poems that are abridged or omitted in other collections. Their substantial part
