American Educational Catalogue, 1919 **Shaping the Church** Martyn Percy, 2016-04-01 This book seeks to dynamically alter the way that theologians ecclesiologists students of religion and ministers look at the church Taking the ideas of composition formation and vocation as basic ecclesial categories Martyn Percy explores how apparently innocent and incidental material is in fact highly significant for the shaping of theological and ecclesiological horizons The Introduction sets the tone with a meditation on how the apparently ordinary scent of a country church can be redolent with meaning setting the tone of expectation in relation to subsequent worship This book is not however simply about reading meanings into events ideas conversations and contexts Rather it sets out to faithfully interpret much of the material that surrounds us yet is often taken for granted or more usually unnoticed The book is an invitation to involve the scholar or minister paying close and patient attention to beliefs language artefacts rituals practices and other material all of which are constitutive for ecclesial life and theological identity A Study Guide for Zbigniew Herbert's "Why The Classics" Gale, Cengage

Selected Poems Herman Gorter,2021-11-02 This is the most extensive selection in English of poems by one of the all time great Dutch poets Herman Gorter 1864 1927 A companion volume to M Kruijff s translation of the epic May this book welcomes the reader to the rich spectrum of Gorter s lyric verse The selection traces the stages of Gorter s career as a poet It opens with 22 poems from his introvertive sensitivist Verses Verzen 1890 which have been called the beginning of modern Dutch poetry These are followed by poems from later collections in which Gorter was transitioning to a less self and more world focused perspective In the subsequent passages from the long epic Pan 1912 1916 he has clearly become a socialist poet albeit in a unique visionary sense He is now pursuing a theme which will obsess him for the rest of his life how to address the object of his love as both an individual woman and an incarnate summation of all humanity The rest of the book comprises the first publication in English of Gorter s little known last work Lyrics Liedjes 1930 Haft s judicious abridgment reserves the structure erotic themes and lyric high points of this outstanding sequence which originally occupied

The Conservative Case for Education Nicholas Tate,2017-07-20 The Conservative Case for Education argues that educational thinking in English speaking countries over the last fifty years has been massively influenced by a dominant liberal ideology based on unchallenged assumptions Conservative voices pushing against the current of this ideology have been few but powerful and drawn from across the political spectrum The book shows how these twentieth century voices remain highly relevant today using them to make a conservative case for education Written by a former government adviser and head teacher the book focuses on four of the most powerful of these conservative voices the poet and social critic T S Eliot the philosopher Michael Oakeshott the political thinker Hannah Arendt and the educationist E D Hirsch In the case of each thinker the book shows how their ideas throw fresh light on contemporary educational issues These issues range widely across current educational practice and include creativity cultural literacy mindfulness the place of religion in schools education for citizenship the teaching of history and Classics the authority of the teacher the arguments for and against a national curriculum the educational response to cultural diversity and more A concluding chapter sums up the conservative case for education in a set of Principles that would be acceptable to many from the Left as well as the Right of the political spectrum The book should be of particular interest to educators and educational policy makers at a time when conservative governments are in power in the UK and the USA as well as to researchers academics and postgraduate students engaged in the study of educational policy or those studying educational issues from an ethical philosophical and cultural standpoint
