Marxist Intellectuals and the Working-class Mentality in Germany, 1887-1912 Stanley Pierson, 1993 How does one explain the presence of educated recruits in movements that were overwhelmingly working class in composition How did intellectuals function within the movements In the first in depth exploration of this question Stanley Pierson examines the rise development and ultimate failure of the German Social Democrats the largest of the European socialist parties from 1887 to 1912 Prominent figures such as Karl Kautsky August Bebel Rosa Luxemburg and Eduard Bernstein are discussed but the book focuses primarily on the younger generation These forgotten intellectuals Max Schippel Paul Kampffmeyer Conrad Schmidt Paul Ernst and others struggled most directly with the dilemmas arising out of the attempt to translate Marxist doctrines into practical and personal terms These young writers speakers and politicians set out to supplant old ways of thinking with a Marxist understanding of history and society Pierson weaves together over thirty intellectual biographies to explore the relationship between ideology and politics in Germany He examines the conflict within Social Democracy between the revisionist intellectuals who sought to adapt Marxist theory to changing economic and social realities and those orthodox and radical intellectuals who attempted to remain faithful to the Marxist vision By examining the struggles of the socialist intellectuals in Germany Pierson brings out the special features of German cultural social and political life before World War I His study of this critical time in the development of the German Social Democratic party also illuminates the wider development of Marxism in Europe during the twentieth century

The Surplus Woman Catherine L. Dollard, 2012 The first German women's movement embraced the belief in a demographic surplus of unwed women known as the *Frauenberschu* as a central leitmotif in the campaign for reform Proponents of the female surplus held that the advances of industry and urbanization had upset traditional marriage patterns and left too many bourgeois women without a husband This book explores the ways in which the realms of literature sexology demography socialism and female activism addressed the perceived plight of unwed women Case studies of reformers including Lily Braun Ruth Br Elisabeth Gnauck K hne Helene Lange Alice Salomon Helene St cker and Clara Zetkin demonstrate the expansive influence of the discourse surrounding a female surfeit By combining the approaches of cultural social and gender history *The Surplus Woman* provides the first sustained analysis of the ways in which imperial Germans conceptualized anxiety about female marital status as both a product and a reflection of changing times
