**Personnel Selection and Assessment** Heinz Schuler,James L. Farr,Mike Smith,2013-03-07 The impetus for this volume came from the editors belief that most current research and thinking about personnel selection and assessment in organizations considered only the perspective of the employer The job applicant seeking to join the organization or the employee being considered for promotion or reassignment was typically given little attention from the designers of employment or assessment systems They believed that this imbalance had several negative implications 1 Organizational selection and assessment appeared to be the principal area within work and organizational psychology that had forgotten a basic tenet of the profession of psychology namely that the welfare of the individual is paramount 2 A lack of concern for the individuals who were being assessed could result in additional criticisms of psychological assessment in employment settings 3 The acceptability of selection and assessment devices and systems may impact in largely unknown ways on the decisions of individuals to apply for jobs or transfers thus affecting the selection ratio and potential utility of such systems 4 Individual reactions to the characteristics of assessment and selection devices could affect the accuracy of the information obtained about those individuals adversely affecting the reliability and validity of resulting personnel decisions Informally discussing these concerns with their professional colleagues the editors found that others were similarly troubled Their next response was to organize a three day conference bringing together a number of researchers in applied psychology to present papers and participate in discussions related to balancing individual and organizational needs in selection and assessment Revisions of the papers presented at this conference form the core of this volume

Leithwood, Judith Chapman, P. Corson, P. Hallinger, Ann Hart, 2012-12-06 EDITORS This introduction to the International Handbook of Educational Leadership and Administration describes some of the motivation for developing the book and several assumptions on which is based much of the work represented in its 31 chapters A synopsis of the contents of those chapters is also provided SOME KEY ASSUMPTIONS It is sometimes suggested that the search for an adequate understanding of leadership is doomed to fail After all there is little evidence of agreement about the concept in spite of prodigious efforts dating back hundreds if not thousands of years Such a view is captured for example in Bennis observation that Of all the hazy and confounding areas in social psychology leadership theory undoubtedly contends for top nomination Probably more has been written and less is known about leadership than any other topic in the behavioural sciences 1959 page 259 We do not find this state of affairs discouraging nor entirely accurate and of course it did not prevent Bennis from proceeding either One reason for our desire to continue in the face of such discouraging words is that a great deal of leadership research aspires to develop a general theory a theory which applies to all or most domains of organized human activity This aspiration inevitably produces decontextualized and therefore abstract categories of practice Howard Gardner s 1995 depiction of leadership as story telling is a case in point     **Recruitment and Selection** Gareth Roberts, 1997 Effective corporate initiatives and processes are the bedrock of successful organizations the Developing Practice series provides manager with essential frameworks to identify formulate and implement the best policies and practice in the management and development of people
