Conventional Choices? Ian Stewart, David Stewart, 2011-11-01 Selecting a leader is a momentous and defining choice for a political party. Leaders symbolize their party and are a primary factor in election outcomes. While much is known about the selection of national party leaders less is known about the provincial selection process particularly in the Maritimes. Breaking

new ground Conventional Choices examines twenty five different leadership elections in three maritime provinces The analysis draws on an extraordinarily rich data set spanning thirty two years to explore the backgrounds attitudes and motivations of those who select party leaders It is an impressive study that offers fresh insights into leadership selection and Maritime party politics

A Matter of Quality? Candidates in Canadian General Elections David Coletto, **Leaders' Personalities and the Outcomes of Democratic Elections** Anthony King, 2002-03-21 The conventional wisdom purveyed by the press and television and accepted as true by most politicians is that elections throughout the democratic world are personal clashes between individual presidential candidates and party leaders Almost everyone assumes that election outcomes are frequently determined by the major candidates personal characteristics In the United States Al Gore in 2000 came over as aloof and arrogant and failed to win his expected victory In Great Britain Tony Blair in 2001 came across as dynamic and personable and won a second term So personal charisma appears to yield electoral success This study by eminent scholars on both sides of the Atlantic suggests that the conventional wisdom is wrong Survey research conducted in recent decades indicates that relatively few voters are swayed by candidates' personal characteristics Far more important are voters longstanding party loyalties their views on issues and their judgments of how well or badly presidents and parties have performed or will perform in office The votes of even the few electors who are swayed by candidates personalities usually cancel each other out As a result election outcomes are seldom decided by individual candidates personal images Occasionally but not often Ronald Reagan and Bill Clinton owed their election victories more to economics than to charm At the end of World War II the charismatic Winston Churchill lost the 1945 British general election the colorless Clement Attlee won Chancellor Helmut Kohl remained in power in Germany for a generation but was never personally popular Russian voters reckoned that Boris Yeltsin could not hold his drink but nevertheless elected him The implications of the authors analyses are profound They suggest that modern democratic politics is not nearly as candidate centered and personality oriented as is often supposed They also suggest that parties policies and their performance in office usually count for far more than the men and women they choose as their leaders Not least the authors suggest that the efforts of political consultants advertising agencies and

spin doctors are often misdirected

The Personalization of Democratic Politics and the Challenge for Political Parties William P Cross, Richard S Katz, Scott Pruyers, 2018-09-16 The implications of the personalization of politics are necessarily widespread and can be found across many different aspects of contemporary democracies Personalization should influence the way campaigns are waged how voters determine their preferences how officials e g MPs and institutions e g legislatures and governments function and the place and operations of political parties in democratic life However in an effort to quantify the

precise degree of personalization over time and to uncover the various causes of personalization the existing literature has paid little attention to many of the important questions regarding the consequences of personalization While the chapters throughout this volume certainly document the extent of personalization they also seek to address some fundamental questions about the nature of personalization how it is manifested and its consequences for political parties governance representation and the state of democracy more generally Indeed one of the primary objectives of this volume is to speak to a very broad audience about the implications of personalization Those interested in election campaigns voting gender governance legislative behaviour and political parties will all find something of value in the contributions that follow
