**Exploring Self and Society** Rosamund Billington, Sheelagh Strawbridge, Jenny Hockey, 1998-06-24. This text addresses contemporary society in an immediate and thought provoking manner and will be a timely and topical introduction to the dynamic and critical dimensions of sociology. It adopts a broad social science approach which reflects both the authors' competencies and also the widening and overlaying boundaries of the social sciences. Starting with the problem oriented agenda of the social sciences it explores the tensions between structure and agency and process via the idea of a structure bound and yet creative and participatory self.

**Body, Self, and Society** Anne E. Becker, 2013-11-25. Anne E. Becker examines the cultural context of the embodied self through her ethnography of bodily aesthetics, food exchange, care and social relationships in Fiji. She contrasts the cultivation of the body self in Fijian and American society, arguing that the motivation of Americans to work on their bodies shapes as a personal endeavor is permitted by their notion that the self is individuated and autonomous. On the other hand, because Fijians concern themselves with the cultivation of social relationships largely expressed through nurturing and food exchange, there is a vested interest in cultivating others' bodies rather than one's own.

**Family, Self, and Society** Philip A. Cowan, Dorothy Field, Donald A. Hansen, Arlene Skolnick, Guy E. Swanson, 2014-05-22. Any agenda for family research in the 1990s must take seriously a contextual approach to the study of family relationships. The editors and contributors to this volume believe that the richness in family studies over the next decade will come from considering the diversity of family forms, different ethnic groups and cultures, different stages of family life as well as different historical cohorts. Their goal is to make more explicit how we think about families in order to study them and understand them. To illustrate the need for diversity in family studies, examples are presented from new and old families, majority and minority families, American and Japanese families, and intact and divorcing families. This variety is intended to push the limits of current thinking, not only for researchers but also for all who are struggling to live with and work with families in a time when family life is valued but fragmented and relatively unsupported by society's institutions. Students and researchers interested in family development from the viewpoint of any of the social sciences will find this book of value.

*Values, Self and Society* Mahlon Brewster Smith, 2017-09-08. In a tough opening statement, M. Brewster Smith outlines his own life course and contrasts it with the agenda of social psychology in the present professional moment. Today's journals, textbooks and conferences represent a vigorous but narrow scientific specialty.

in psychology the practitioners of which are more closely focused on agendas that are primarily and often only intelligible within the subdiscipline than was the case when I formed my identity as a psychologist In contrast Smith sees himself and has long been seen by others as a social psychologist in the tradition of Gordon Allport Gardner and Lois Murphy Kurt Lewin and Muzafer Sherif Smith's unique ability has been to contribute to the emergence of personality as a differentiated academic field and at the same time maintain strong interdisciplinary ties to a variety of fields ranging from sociology to philosophy In recent years such concerns have made the author a central figure in the development of Humanistic Psychology as a part of the American Psychological Association Because of these wide ranging concerns the major statements of Brewster Smith have appeared in diverse places Here brought into a unified and uniform frame of reference one has his work on values and selfhood humanistic psychology and the social sciences and humanism and social issues brought together for the first time The picture is of a major thinker who is at home in the details of psychology and in the broad areas of public interest and social policy Brewster Smith discusses major issues in terms of the political processes involved in the public interest These range from the issue of advocacy within social research to conceptualizing anew familiar issues within psychology For the generalist interested in the broader meanings of social psychology to the specialist aiming to recapture the big issues with which the field was once identified this is a must volume

Soul, Self, and Society Edward L. Rubin, 2015-02-17 Political and social commentators regularly bemoan the decline of morality in the modern world They claim that the norms and values that held society together in the past are rapidly eroding to be replaced by permissiveness and empty hedonism But as Edward Rubin demonstrates in this powerful account of moral transformations these prophets of doom are missing the point Morality is not diminishing instead a new morality centered on an ethos of human self fulfillment is arising to replace the old one As Rubin explains changes in morality have gone hand in hand with changes in the prevailing mode of governance throughout the course of Western history During the Early Middle Ages a moral system based on honor gradually developed In a dangerous world where state power was declining people relied on bonds of personal loyalty that were secured by generosity to their followers and violence against their enemies That moral order exemplified in the early feudal system and in sagas like *The Song of Roland* *The Song of the Cid* and the Arthurian legends has faded but its remnants exist today in criminal organizations like the Mafia and in the rap music of the urban ghettos When state power began to revive in the High Middle Ages through the efforts of the European monarchies and Christianity became more institutionally effective and more spiritually intense a new morality emerged Described by Rubin as the morality of higher purposes it demanded that people devote their personal efforts to achieving salvation and their social efforts to serving the emerging nation states It insisted on social hierarchy confined women to subordinate roles restricted sex to procreation centered child rearing on moral inculcation and countenanced slavery and the marriage of pre teenage girls to older men Our modern era which began in the late 18th century has seen the gradual erosion of this morality of higher purposes and the rise of a new

morality of self fulfillment one that encourages individuals to pursue the most meaningful and rewarding life path Far from being permissive or a moral abdication it demands that people respect each other s choices that sex be mutually enjoyable that public positions be allocated according to merit and that society provide all its members with their minimum needs so that they have the opportunity to fulfill themselves Where people once served the state the state now functions to serve the people The clash between this ascending morality and the declining morality of higher purposes is the primary driver of contemporary political and cultural conflict A sweeping big idea book in the vein of Francis Fukuyama s *The End of History* Charles Taylor s *The Secular Age* and Richard Sennett s *The Fall of Public Man* Edward Rubin s new volume promises to reshape our understanding of morality its relationship to government and its role in shaping the emerging world of High Modernity

*Between Self and Society* John Rodden, 2016-01-15 *Between Self and Society* explores the psychosocial dramas that galvanize six major British novels written between the eighteenth and twentieth centuries The book challenges an influential misconception that has for too long hindered appreciation of the psychological novel John Rodden argues that there should be no simplifying antithesis between psychological inner conflicts within the mind or soul and institutional outer conflicts within family class community Instead it is the overarching dramatic yet often tortuous relations between self and society that demand our attention Rodden presents fresh interpretations of an eclectic group of prose fiction classics including Tobias Smollett s *The Adventures of Roderick Random* William Godwin s *Caleb Williams* Thomas Hardy s *The Mayor of Casterbridge* Ford Madox Ford s *The Good Soldier* Wyndham Lewis s *Tarr* and D H Lawrence s *Women in Love* Far from being merely admirable experiments let alone daring though interesting failures these fictions are shown to possess aesthetic unity stylistic consistency and psychic force *Between Self and Society* thus impels our careful reconsideration of novels that represent major artistic achievements yet have been either unjustly neglected or appreciated in limiting ways that do injustice to their psychological aspects Rodden s vibrant discussion invites an upward revaluation of these works and encourages the full recognition of their value and significance in British literary history

**Soul, Self, and Society** Michael Rynkiewicz, 2012-01-05 Globalization and urbanization are twin forces that are powerfully shaping economics politics and religion in the world today Traditional anthropological theories are inadequate to recognize and analyze trends such as global migration diasporas and transnationalism New departures in anthropology and the social sciences seeking to address these and other phenomena can help us critique and reshape the theology and practice of Christian mission Today most societies are no longer monocultural In such multicultural contexts any given individual may be competent in several cultures several languages several social networks What does it mean to be in mission with people on the move people who present themselves in one social identity language and culture within a particular setting and then in another setting even on the very same day present themselves in another social identity language and culture In the face of widespread rapid movement of peoples and their increasingly fluid and multifaceted identities will the missionary settle down somewhere or be itinerant

along with the people How are perplexing new questions in particular contexts to be addressed such as In what ways is the Nigerian who is founding an AIC congregation near Houston a missionary too How will Brazilians and Koreans be trained for cross cultural ministry The world is changing faster than missionaries can be retrained for service And yet ethnographic tools are still crucial to missionary practice This important work seeks to draw on recent developments in anthropology to bring valuable perspective and tools to bear on equipping missionaries for work amidst the rapid shifting and complex shaping of peoples by the forces of today s globalized world

*Authenticity in Culture, Self, and Society* J. Patrick Williams, 2016-12-05 Across sociology and cultural studies in particular the concept of authenticity has begun to occupy a central role yet in spite of its popularity as an ideal and philosophical value authenticity notably suffers from a certain vagueness with work in this area tending to borrow ideas from outside of sociology whilst failing to present empirical studies which centre on the concept itself *Authenticity in Culture Self and Society* addresses the problems surrounding this concept offering a sociological analysis of it for the first time in order to provide readers in the social and cultural sciences with a clear conceptualization of authenticity and with a survey of original empirical studies focused on its experience negotiation and social relevance at the levels of self culture and specific social settings
