**Self, Society, and Womankind** Kathy E. Ferguson, 1980-12-05      **Self, Society, and Womankind** Kathy E. Ferguson, 1980-12-05      Self, Society and Womankind Kathy Ellen Ferguson, 1976      **Self, War, and Society** Mary Jo Deegan, 2017-09-08

George Herbert Mead 1863-1931 is a founding figure in the field of sociology. His stature is comparable to that of his contemporaries Emile Durkheim and Max Weber. Mead's contribution was a profound and unique American theory that analyzed society and the individual as social objects. As Mead saw it, both society and the individual emerged from cooperative democratic processes linking the self, the other, and the community. Mary Jo Deegan, a leading scholar of Mead's work, traces the evolution of his thought, its continuity and change. She is particularly interested in the most controversial period of Mead's work in which he addressed topics of violence and the nation-state. Mead's theory of war, peace, and society emerged out of the historical events of his time, particularly World War I. During this period, he went from being a pacifist along with his contemporaries John Dewey and Jane Addams to being a strong advocate for war. From 1917-1918, Mead became a leader in voicing the need for war based on his theory of self and society. After the war, he became disillusioned with President Woodrow Wilson and Americans' failure to support mechanisms for international arbitration and with the political reasons for American participation in World War I. He returned to a more pacifist and cooperative model of behavior during the 1920s when he became less political, more abstract, and more withdrawn from public debate. The book includes Deegan's interpretation of Mead's early social thought, his friendship and family networks, the historical context of America at war, and the importance of analysis of violence and the state from Mead's perspective. She also provides illustrative selections from Mead's work, much of which was previously unpublished.

**The Social Self in Zen and American Pragmatism** Steve Odin, 1996-01-10

The thesis of this work is that in both modern Japanese philosophy and American pragmatism, there has been a paradigm shift from a monological concept of self as an isolated I to a dialogical concept of the social self as an I-Thou relation, including a communication model of self as an individual-society interaction. It is also shown that for both traditions,

all aesthetic moral and religious values are a function of the social self arising through communicative interaction between the individual and society However at the same time this work critically examines major ideological conflicts arising between the social self theories of modern Japanese philosophy and American pragmatism with respect to such problems as individualism versus collectivism freedom versus determinism liberalism versus communitarianism and relativism versus objectivism

Between Self and Society John Rodden,2016-01-15 Between Self and Society explores the psychosocial dramas that galvanize six major British novels written between the eighteenth and twentieth centuries The book challenges an influential misconception that has for too long hindered appreciation of the psychological novel John Rodden argues that there should be no simplifying antithesis between psychological inner conflicts within the mind or soul and institutional outer conflicts within family class community Instead it is the overarching dramatic yet often tortuous relations between self and society that demand our attention Rodden presents fresh interpretations of an eclectic group of prose fiction classics including Tobias Smollett s The Adventures of Roderick Random William Godwin s Caleb Williams Thomas Hardy s The Mayor of Casterbridge Ford Madox Ford s The Good Soldier Wyndham Lewis s Tarr and D H Lawrence s Women in Love Far from being merely admirable experiments let alone daring though interesting failures these fictions are shown to possess aesthetic unity stylistic consistency and psychic force Between Self and Society thus impels our careful reconsideration of novels that represent major artistic achievements yet have been either unjustly neglected or appreciated in limiting ways that do injustice to their psychological aspects Rodden s vibrant discussion invites an upward revaluation of these works and encourages the full recognition of their value and significance in British literary history

**Handbook of the Sociology of Gender** Janet Saltzman Chafetz, 2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapsychic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while incorporating some cross disciplinary material this volume focuses specifically on socio logical theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines
