Developing Positive Student Self-concept David L. Silvernail, 1985 This publication reviews empirical research in an effort to 1 help educators improve their understanding of self concept development and 2 identify effective strategies for developing positive student

self concepts An introduction and a brief section on definitions is followed by a discussion of early pre school self concept development The topic of schooling and self concept development is then discussed in terms of the impact of school variables and self concept enhancement strategies on student self concept A discussion of the teacher s role in self concept enhancement follows focused on diagnosis of student self concept and the planning of intervention strategies It is concluded that the impact of schools in general and teachers in particular on the self images of youth can be negative but that concerted efforts to bring about positive changes frequently succeed In addition future research should respond 1 to the need for more action research to identify effective change strategies and 2 to the need for a more comprehensive understanding of the construct of self concept Such an understanding would be particularly concerned with the way in which self concept develops what influences it how it changes and how the changes can be measured Over 225 references are cited

RH **Reframing the Early Childhood Curriculum** Jane Page, 2002-01-04 Pre school children have fundamentally different attitudes towards the future and attendant notions of time and space For this reason early childhood professionals are optimally placed to lay important foundations for young children s long term development Children s flexibility of thought their positive and constructive outlook on life their sense of the continuity of time their creativity and imagination and their sense of personal connection with time and the future are all qualities that should be recognized and addressed in early childhood educational programmes as a means of counteracting the difficulty youths experience in knowing what to expect in their future lives and coming to understand their roles in shaping them Reframing the Early Childhood Curriculum offers fresh insight into examining futurists and early childhood theorists thinking of the relevance of planning for children s long term needs in early childhood identifying the skills attitudes and outlooks required to assist young children attending early childhood programmes in their long term growth and development exploring the means through which these skills attitudes and outlooks can be achieved in curriculum frameworks through specific goals and learning experiences against the background of youth and young children s views of the future

The Encyclopedia of Middle Grades Education Steven B. Mertens, Vincent A. Psychology in Teaching, Learning, and Growth Don E. Hamachek,1990 **Self-Esteem in Children with Special Educational Needs** Peter W. Gurney,2018-09-03 First published in 1988 The mounting concern in schools over widespread failure in academic achievement greater disaffection in children and the lack of confidence in many school leavers are highlighted by the difficulties experienced by children who have special educational needs Within this group the importance of the child s evaluation of him or herself i e self esteem is a neglected issue This book investigates how the level of self esteem appears to influence social behaviour and school performance in children with special educational needs It discusses the practical steps that can be taken to assess and enhance self esteem in children with special needs and evaluates their effectiveness The author emphasises the discrepancy between the performance of children who have special educational needs in ordinary classrooms with that achieved in special settings He argues that the negative impact on a child s self esteem created by placing him her in an ordinary classroom may outweigh the benefits of greater integration A full and informative treatment of both the theoretical and practical implications of a neglected subject this text book is suitable for experienced special educational needs teachers and those undergoing teacher training as well as psychologists with an academic interest in the self concept or a professional involvement in assessing children *Journal of Education Culture and Society* 2013_2 ,2013-09-02 **Youth Development** Rebecca S. Thompson,1991
