*Family Passages* Glenn H. Asquith, 1990 *Family Passages* brings the combined insights of the Bible and the behavioral sciences to the major transitions or passages of the contemporary family. It covers such important family stages as marriage, childbearing, years, school age, children, adolescence, launching phase, empty nest, and others. The book moves toward the affirmation that God is present in all of family life as our source of meaning and our hope of making it to the end. This book will help the young adult just going into marriage, the middle adult in the midst of marriage, and the older adult who faces retirement and the loss of a spouse. Broadman Press wishes you the best in family relations as you work through *Family Passages*.

**Invasion of Other Gods** David Jeremiah, C. C. Carlson, 2023-12-19 A critical look at New Age spirituality by a Christian pastor inducted into the National Religious Broadcasters Hall of Fame. New Age philosophy is really ancient paganism repackaged for modern consumption. In *Invasion of Other Gods*, Illumination Book Award winner David Jeremiah shows how this form of spirituality has flooded our culture with teachings and terminology that clearly contradict the Christian Gospel. He discusses the history and thinking behind such neo-pagan practices as crystals and past life therapy and shows how innocent seekers, especially those coping with difficult life situations, can fall prey to these phenomena in an informative guide that will fortify your faith against these seductive temptations.

**American Book Publishing Record**, 1988 *The Market Economy and Christian Ethics* Peter H. Sedgwick, 1999-10-07 Peter Sedgwick explores the relation of a theology of justice to that of human identity in the context of the market economy and engages with critics of capitalism and the market. He examines three aspects of the market economy: first, how does it shape personal identity through consumption and the experience of paid employment in relation to the work ethic? Second, what impact does the global economy have on local cultures? Finally, as manufacturing changes out of all recognition through the impact of technology and global competition, what is the effect in terms of poverty? Drawing on the response of the Catholic Church both in the United States and in papal encyclicals to the market economy from 1985-1991, Sedgwick argues that its involvement deserves to be better known. Moreover, he recommends that the Churches remain part of the debate in reforming and humanizing the market economy.
