Thomas Baer, 1999 Students can work at their own pace with minimal direct instruction using this concise workbook designed to provide future teachers with a sound understanding of both the content and pedagogy of phonics Using evaluative feedback from both students and reading professionals in the field who have used the previous edition the contents of this workbook have been expanded and strengthened to better serve the needs of prospective teachers Strong evidence indicates that children who are taught phonics at the beginning stages of reading instruction tend to do better than those who are not Therefore the concentration of this text is not on whether or not phonics should be included in beginning instruction but how phonics can be taught most effectively Intensifying Classroom Routines in Reading and Writing Programs Michael P. Ford, 2017 Three common routines are seen in almost every primary language arts programs morning messages shared readings and word walls These routines should be integrated to support the total language arts program but are teachers of grades K 2 getting the most bang for their buck out of these activities Morning messages can become very routinized and repeat the same experiences over and over again Shared readings are sometimes conducted with little variation in spite of changing demands from the texts being used and changing needs in the learners with whom they are being used Word walls might be put up with some attention early in the year and remain virtually unchanged as the year moves forward Intensifying Classroom Routines in Reading and Writing Programs focuses on how teachers can get more instructional mileage out of these three common classroom routines Author Michael P Ford lays out step by step day by day plans to put those three key routines on a cycle that changes as students move through developmental phases This resource helps teachers plan for emergent and early readers and writers It also looks at how teachers can assist students as they move through critical areas including concepts of print alphabetic knowledge phonological awareness sound symbol relationships high frequency words structural analysis context clues comprehension strategies and composition strategies With these intensified routines in place students will clearly see connections between reading and writing Teaching Beginning Readers Jerry L.
