Digital Freedom Narain Dass Batra,2008 In Digital Freedom N D Batra explores the tension between the boundlessness of the Internet and the boundaries of the marketplace as well as the resulting impact on human expression privacy and social controls Digital Freedom is an exploration of and meditation on the question How much freedom does a person need The question evokes Tolstoy s parable How much land does a man need Is freedom an acquired taste much like one s love for symphony orchestra Or is it a necessity After all civilizations in the past have produced monumental works in all fields of human endeavor without as much obsession with individual freedom as we have today Digital Freedom explores these issues including surveillance intellectual property and copyright from the perspective of an evolutionary self organizing social system This system both creates and assimilates innovations and in the process undergoes reorganization and renewal
