Self Representation Life Narrative Studies In Identity And Ideology:

Self-Representation Gary S. Gregg, 1991-10-30 This innovative work offers a new approach to the study of self representation drawing on both the older study of lives tradition in personality psychology and recent work in narrative psychology Gary S Gregg presents a generative theory of self representation applying methods of symbolic analysis developed by cultural anthropologists to the texts of life historical interviews This model accounts for the continual shifting of identity among contradictory surface discourses about the self as it shows how each discourse is defined as a reconfiguration of a stable cluster of deep structurally ambiguous elements Gregg not only examines the nature of narrative but also addresses more mainstream issues in cognitive science such as How is knowledge of the self and its social world represented What are the elementary units of self cognition How are cognition and affect linked After a brief introduction the book raises critical questions about self representation by presenting re analyses of two famous case studies Freud's Rat Man and Mack and Larry from The Authoritarian Personality and initial observations from Gregg's fieldwork in Morocco A theoretical chapter then introduces the notion of structured ambiguity which enables a person to shift between identities by figure or ground like reversals of key symbols and metaphors Three original life narrative analyses follow which with increasing complexity develop the model via analogies to basic structures of tonal music The work concludes with a theoretical chapter that reexamines the ideas of William James George Herbert Mead and Erik Erikson about the self's unity and multiplicity and then summarizes a generative model The book presents a compelling alternative to prevailing views of self cognition and identity and will be a valuable resource for courses in psychology anthropology and sociology as well as an important tool for researchers and professionals in these fields

Life Choices Tod Sloan, 2018-10-08 Through readings of 15 life history interviews this book creates a framework for the interpretation of dilemmas and decisions As each individual recounts a specific instance when a life choice was necessary the supporting analysis reveals the framework that triggered the sense that a turning point had been reached The author's basic premise is that common sense and mainstream psychology fail to enlighten us about what is actually involved in major life choices He argues that individuals tend to make decisions that are not in their best interests and that these decisions tend to reinforce the sociocultural structures that were instrumental in the creation of their dilemmas

Text, Body and Indeterminacy Anna Budziak, 2009-03-26 The nature of the self is an important point at which philosophy and literature intersect Text Body and Indeterminacy acknowledges this connection by forging a link between the philosophical concept of the self and the category of the literary character The philosophical horizon of Text Body and Indeterminacy is delineated by the neo pragmatist

debate on selfhood The book entwines the ideas of Richard Rorty and Richard Shusterman by stressing similarity in their aestheticizing of ethics and by showing the difference in their understanding of the self as textual or bodily The characters created by Pater and Wilde are freshly assessed within this dual philosophical perspective Their doppelgangers are seen as the forerunners of postmodernist concepts the cerebral flneur is reflected in Rorty's model ironist and the sensuous aesthete returns through Shusterman's notion of the somatic self Text Body and Indeterminacy establishes how Pater renders his protagonists through discursive patterns tropes of Decadence philosophical theorems and myths only to subvert these vocabularies and to emphasize the reality of the body the extra textual dimension of the self It also shows how Wilde's sensuous personae both bodily and indeterminate transcend the vocabularies available to the Wildean flneurs Through its interpretations Text Body and Indeterminacy uniquely combines literary portraits by Pater and Wilde highlights interlocking themes and in every reading points to the ethical gains of tilting the idea of selfhood into the somatic realm **How We Are**

Changed by War D.C. Gill, 2010-04-30 How We Are Changed by War examines the changes to Americans during wartime through the medium of their diaries and correspondence beginning with the colonial period of the early seventeenth century and ending with diaries and letters from Iraq War veterans The book clearly discusses and describes the universal themes of war such as reintegration to society and the horrors of war through private writings regardless of the narrator's historical era This allows the writers to speak to each other across time to reveal a profound commonality of cultural experience How We Are Changed by War is a fascinating look at the writings of individuals who served their military in different eras and a great example of how history is shaped by both memory and experience Jacket **The Five Stages of Culture Shock** Paul

Pedersen, 1994-12-12 The educational literature suggests that international contact contributes to a comprehensive educational experience The Five Stages of Culture Shock examines an international shipboard educational program and seeks to identify specific insights resulting from informal extracurricular contact between students and host nationals in the context of culture shock experiences Using the critical incident methodology Pedersen analyzes students' responses to nearly 300 specific incidents which resulted in insights that apply to the students' own development as well as the sociocultural context of the host countries This use of critical incidents shows one way to evaluate and assess the subjective experiences of the informal curriculum More broadly the analysis sheds light on the concept of culture shock as a psychological construct

developments in social theory **Interpreting Experience** Ruthellen Josselson, Amia Lieblich, 1995-03-21 How does context shape biography How do language and relationships affect the development of people's work lives An international group of scholars from diverse disciplines addresses these and other issues in this volume of The Narrative Study of Lives They explore what it means to take narrative seriously and how an empathic stance in narrative research opens out on the dialogic self The contributors also consider questions of how participants make meaning out of their experience in the framework of available interpretive horizons In addition there are sections that use narrative approaches to develop a deeper understanding of loneliness and the coming out process in homosexuality This volume examines the many ways in which people interpret their experience and explores conceptual avenues to make use of these understandings in the analysis of human life Those interested in qualitative methods evaluation and education research will find Interpreting Experience to be an invaluable contribution **The Middle East** Gary S.
