International Conference on Advanced Education Technology and Management Science(AETMS2013) S. K. Chen,T.R. Vijayaram,2013-12-12 2013 International Conference on Advanced Education Technology and Management Science
AETMS2013 aims to provide a forum for accessing to the most up to date and authoritative knowledge from both Education Technology and Management Science AETMS2013 features unique mixed topics of Education technology Teaching theory psychology Sport Pedagogy Management science and engineering Finance and economics and so on The goal of this conference is to bring researchers engineers and students to the areas of Education Technology and Management Science to share experiences and original research contributions on those topics Is Technology Good for Education? Neil Selwyn,2016-06-07 Digital technologies are a key feature of contemporary education Schools colleges and universities operate along high tech lines while alternate forms of online education have emerged to challenge the dominance of traditional institutions According to many experts the rapid digitization of education over the past ten years has undoubtedly been a good thing Is Technology Good For Education offers a critical counterpoint to this received wisdom challenging some of the central ways in which digital technology is presumed to be positively affecting education Instead Neil Selwyn considers what is being lost as digital technologies become ever more integral to education provision and engagement Crucially he questions the values agendas and interests that stand to gain most from the rise of digital education This concise up to the minute analysis concludes by considering alternate approaches that might be capable of rescuing and perhaps revitalizing the ideals of public education while not denying the possibilities of digital technology altogether **Educational Reform** Jordan T. Ville,2001 This book brings together the literature in a field which may define the 21st century Can economic and technological progress continue with educational systems which seem to answer to no one but themselves and which output graduates who can barely read and write and who have only the faintest clue how to use a map This bibliography provides access via Title Author and Subject Indexes Contents Educational Accountability Educational Change Educational Equalisation Educational Leadership Educational Planning Educational Indicates *Resources in Education* ,2001-04
