Self-assessment For The Mrcp Haematology:

Self-assessment For The Mrcp: Haematology Barbara Jane Bain, 1998-04-15 This invaluable book has been written specifically for trainee physicians preparing for the second part examination for membership of the Royal College of Physicians. It is in the format of this examination and the questions are typical of those used. The questions have been selected to cover sections of haematology which are particularly important for specialists in internal medicine. Although the questions have been formatted for this specific examination, the book will also be useful for those preparing for similar examinations in other countries and in addition will be helpful to those preparing for examinations of the Royal College of Pathologists. The text is well illustrated with clinical photographs and photomicrographs. The author has had many years experience in the postgraduate education of trainee physicians, haematologists and pathologists and has written several authoritative textbooks in the fields of haematology and haematopathology.

Chapters are divided by clinical specialties. Volume 1 includes cardiology, dermatology, endocrinology and metabolic medicine, gastroenterology, haematology and infectious diseases. Volume 2 includes neurology and ophthalmology, oncology and palliative care, psychiatry and clinical pharmacology, nephrology, respiratory medicine and rheumatology. The first section of each chapter contains a clinical scenario followed by a multiple choice best of five question written in the style of the MRCP exam. The second section of each chapter contains the answer, a concise and clear explanation of the reasoning behind the given answer being correct, as well as a comprehensive tutorial on the subject matter which uses high quality diagrams and tables to help readers absorb and retain information quickly and orderly. References for further reading are also then given for those interested in a broader review.
