through confident sleaze free self promotion **Selling Techniques Made Easy** Jeffery Quinn, 2012-07-05 This book is the culmination of almost a quarter century of experience in sales and not just mine It took almost a year to put this together and over that time I started talking to other salespeople and clients about the project and heard even more stories got even more advice and tips some of which I even agreed with You ll find those in here too I even give credit where credit is due Sometimes I think it s worthwhile for anyone who is into sales already or even considering it The idea was to start more conversations spark some new thoughts trigger a few experiments and ultimately make you better at your job I don t expect everyone to love sales as much as I do But I do expect everyone to get something out of what they find here **Marketing Made Simple** Geoffrey Lancaster, Paul Reynolds, 2002 An introduction to basic marketing concepts and techniques It covers developments in marketing thinking such as Internet marketing CRM and b2b marketing There are case studies of marketing success stories and failures **Dropshipping Made Simple** Adidas Wilson, Dropshipping is a method of retail fulfillment where stores do not actually stock their products When someone buys a product the store buys it from another party and then ships it to the customer directly The merchant neither handles nor sees the product Dropshipping is different from the conventional retail model in that in dropshipping the seller does not own an inventory He or she purchases an order from a third party The dropshipping model like everything else has drawbacks and benefits You need less capital this is arguably the biggest advantage You do not need thousands of dollars to start an ecommerce store Conventional retailers need to have a huge amount of capital to build their inventory In dropshipping you only purchase a product once a customer has placed an order and made the payment An initial inventory investment is not needed Easy to start an ecommerce business becomes much easier to run when you do not handle physical products You will not worry about a warehouse packing and shipping tracking inventory handling returns and much more Low overhead since you will not be dealing with a warehouse or purchasing inventory expect low overhead expenses A lot of people run a dropshipping businesses from their home office with their laptop and only use about 100 per month The expenses may increase as your business grows but they will still be low Flexible location if you have an internet connection you can manage your dropshipping business from anywhere
