Popular Religion and Modernization in Latin America Cristian G. Parker,2015-10-14 This landmark work constitutes a

complete historical sociological and political view of religion as a cultural expression in Latin America Parker shows how beginning with the arrival of the conquistadors religion has played a transcendent role in shaping the national cultures of the region particularly its popular cultures and continues to do so Parker argues that while capitalistic modernization and urbanization do lead to secularization this process is not linear or progressive Secularization in Latin America does not destroy its religious fabric but rather transforms it accentuating its pluralistic character Christianity and particularly Roman Catholicism has influenced Latin American identity and culture most profoundly But it has by no means been the sole influence nor has Christianity itself remained unchanged in the process As a product of history and capitalistic modernization the trait of religion that emerges most clearly is that of cultural and religious pluralism La América española: entre el pacífico y el atlántico.
