Morocco Since 1830 A History:

Morocco Since 1830 C.R. Pennell, 2000 Although the country has returned to roughly its pre colonial boundaries Morocco still suffers from the effects of colonization by France and Spain Its current king like the sultans of the nineteenth century claims legitimacy through his leadership of the Islamic community but there is a long tradition of dissent based on Islamic ideals Morocco s history is also marked by the enduring presence of a large Jewish community *The Maghreb Since 1800* Knut S. Vikor, Professor of the History of the Middle East and Muslim Africa University of Bergen Knut S Vikor, 2024-10-03 This short history of the Maghreb surveys its development from the coming of Islam to the present day but with greatest emphasis on the modern period from the early nineteenth century onwards *Encyclopedia of African History 3-Volume Set* KEVIN SHILLINGTON., 2005 *A Social History of France 1780-1914* Peter McPhee, 2017-03-03 This volume provides a lively and authoritative synthesis of recent work on the social history of France and is now thoroughly updated to cover the long nineteenth century from 1789 1914 Peter McPhee offers both a readable narrative and a distinctive coherent argument about this remarkable century and explores key themes such as Peasant interaction with the environment The changing experience of work and leisure The nature of crime and protest Changing demographic patterns and family structures The religious practices of workers and peasants The ideology and internal repercussions of colonisation At the core of this social history is the exercise and experience of social relations of power not only because in these years there were four periods of protracted upheaval but also because the history of the workplace of relations between women and men adults and children is all about human interaction Stimulating and enjoyable to read this indispensable introduction to nineteenth century France will help readers to make sense of the often bewildering story of these years while giving them a better understanding of what it meant to be an inhabitant of France during that turbulent time *A History of Modern Africa* Richard J. Reid, 2012-01-17 Updated and revised to emphasise long term perspectives on current issues facing the continent the new 2nd Edition of *A History of Modern Africa* recounts the full breadth of Africa s political economic and social history over the past two centuries Adopts a long term approach to current issues stressing the importance of nineteenth century and deeper indigenous dynamics in explaining Africa s later twentieth century challenges Places a greater focus on African agency especially during the colonial encounter Includes more in depth coverage of non Anglophone Africa Offers expanded coverage of the post colonial era to take account of recent developments including the conflict in Darfur and the political unrest of 2011 in Egypt Tunisia and Libya *The New Cambridge History of Islam: Volume 5, The Islamic World in the Age of Western Dominance* Francis Robinson, 2010-11-04 Volume 5 of *The New Cambridge History of Islam* examines the history of Muslim societies from 1800 to the present Francis Robinson a leading historian of Islam has brought together a team of scholars with a broad range of expertise to explore how Muslims responded to the challenges of Western conquest and domination across the last two hundred years As their articles reveal the social economic political and historical

circumstances which influenced these responses have in many different parts of the world empowered Muslim societies and encouraged transformation and religious revival The volume offers a fascinating glimpse into the local dimensions of that revival and how regional connections have been forged Synthesising the academic research of the past thirty years as well as offering substantial guidance for further study this book is the starting point for all those who wish to have a serious understanding of modern Muslim societies The Modern Middle East Mehran Kamrava,2011-01-03 Since it was first published in 2006 this concise overview of the making of the contemporary Middle East has become essential reading for students and general readers who want to gain a better understanding of this diverse region Writing for a wide audience Mehran Kamrava takes us from fall of the Ottoman Empire to today exploring along the way such central issues as the dynamics of economic development authoritarian endurance and the Israel Palestinian conflict For this new thoroughly revised edition he has brought the book fully up to date by incorporating events and issues of the past few years The Modern Middle East now includes information about the June 2009 Iranian presidential elections and their aftermath changes precipitated so far by the Obama administration Israel s attack on Gaza in 2008 the effects of globalization on economic development and more *The Battle for Algeria* Jennifer Johnson,2016 The Battle for Algeria offers a new interpretation of the Algerian War 1954 1962 that highlights the social dimensions of the National Liberation Front s winning strategy specifically its health care and humanitarianism programs which targeted the local and international arenas and directly contributed to Algerian sovereignty *The African Revolution* Richard Reid,2025-01-28 A panoramic global history of Africa in the age of imperialism Africa s long nineteenth century was a time of revolutionary ferment and cultural innovation for the continent s states societies and economies Yet the period preceding what became known as the Scramble for Africa by European powers in the decades leading up to World War I has long been neglected in favor of a Western narrative of colonial rule The African Revolution demonstrates that the Scramble and the resulting imperial order were as much the culmination of African revolutionary dynamics as they were of European expansionism In this monumental work of history Richard Reid paints a multifaceted portrait of a continent on the global stage He describes how Africa witnessed the emergence of new economic and political dynamics that were underpinned by forms of violence and volatility not unlike those emanating from Europe Reid uses a stretch of road in what is now Tanzania one of the nineteenth century s most vibrant commercial highways as an entry point into this revolutionary epoch weaving a broader story around characters and events on the road He integrates the African experience with new insights into the deeper currents in European societies before and after conquest and he shows how the Africans themselves created opportunities for European expansion Challenging the portrayal of Africa s transformative nineteenth century as a mere prelude to European colonialism The African Revolution reveals how this turbulent yet hugely creative era for Africans intersected with global intrusions to shape the modern age

Algeria Michael J. Willis,2022-12-15 When mass protests erupted in Algeria in 2019 on a scale unseen anywhere in the

region since the Arab Spring the outside world was taken by surprise Algeria had been largely unaffected by the turmoil that engulfed its neighbors in 2011 and it was widely assumed that the population was too traumatized and cowed by the country's bloody civil war to take to the streets demanding change Michael J Willis offers an explanation of this unexpected development known as the Hirak Movement examining the political and social changes that have occurred in Algeria since the dark decade of the 1990s He examines how the bitter civil conflict was brought to an end and how a fresh political order was established following the 1999 election of a dynamic new leader Abdelaziz Bouteflika Initially underwritten by revenue from Algeria's substantial hydrocarbons resources this new order came to be undermined by falling oil prices an ailing president and a population determined to have its voice heard by an increasingly corrupt out of touch and opaque national leadership Exactly twenty years passed before Bouteflika's presidency was brought to an end by the Hirak protests this book is an authoritative account of them Mediterranean quarantines, 1750-1914 John Chircop, Francisco Javier

Martinez, 2018-03-13 Mediterranean quarantines investigates how quarantine the centuries old practice of collective defence against epidemics experienced significant transformations from the eighteenth century in the Mediterranean Sea its original birthplace The new epidemics of cholera and the development of bacteriology and hygiene European colonial expansion the intensification of commercial interchanges the technological revolution in maritime and land transportation and the modernisation policies in Islamic countries were among the main factors behind such transformations The book focuses on case studies on the European and Islamic shores of the Mediterranean showing the multidimensional nature of quarantine the intimate links that sanitary administrations and institutions had with the territorial organisation of states international trade political regimes and the construction of national colonial and professional identities Faith and Sword Alan G.

Jamieson, 2006-06-26 Faith and Sword explores the long and bloody history of the Muslim Christian conflict and examines the causes of present day tensions between Islamic nations and the secular West This book examines the Christian Muslim conflict through all its stages and shows how our current situation has emerged Ranging from Morocco to Indonesia and from Russia to Somalia it sheds light on the complex political and religious dynamics that form the background to one of the most important conflicts of our time BOOK JACKET *Political Belief in France, 1927-1945* Caroline Campbell, 2015-12-09

In the inter war era the rise of the largest political movement in modern French history the powerful Croix de Feu 1927 1936 and its successor the Parti Social Fran ais or PSF 1936 1945 led to a sharp rightward turn in France's political culture *Political Belief in France 1927 1945* traces the central role of women in this shift arguing that they transformed the Croix de Feu PSF from a paramilitary league for veterans into a social reform movement that sought to remake the politics society and culture of the French Republic Following the creation of a Women's Section in 1934 the women of the Croix de Feu PSF developed a wide array of social programs including welfare services youth development and health care initiatives At a time of economic depression and high unemployment these popular programs tempered the organization's fearsome reputation as

a violent paramilitary group While the efforts of the Women s Section had the veneer of moderation they accentuated the long standing conservative image of France as a deeply Christian society and sought to assimilate people of different ethnoreligious backgrounds into the dominant national community Croix de Feu PSF women promoted their socialagenda as a religious and patriotic duty a reflection of the individual s responsibility to make personal sacrifices on behalf of their vision for France s Christian civilization The Croix de Feu PSF s ethnoreligious nationalism circulated throughout the French imperial nation state making the movement the premier defender of an empire at the height of its power But women in North African branches faced substantial marginalization and the movement remained dangerously sectarian in the Maghreb driving indigenous activists from reformism to anticolonialism The Croix de Feu PSF thus set the stage for both the authoritarian anti Semitic Vichy regime and the decolonization that followed the war The first book on women of the French far right in the age of fascism Political Belief in France 1927 1945 contributes to the fields of French history gender studies the history of fascism and the history of empire **All Politics Are God's Politics** Ahmed Khanani,2021-01-15

Contemporary mass media descriptions of Muslims often suggest that Islam and Muslims are fundamentally undemocratic Policy makers in the West have weaponized these descriptions in attempts to legitimize anti Muslim right wing policy developments across the West and in the United States in particular from surveillance in the aftermath of 9 11 to the anti Islamic travel ban of 2017 But are Muslims undemocratic Ahmed Khanani argues that this is not the case In All Politics are God s Politics Khanani shows that in fact the opposite holds true for socially conservative politically active Muslims Islamists democracy or dimuqr iyya reflects and extends their religious values By drawing on conversations with over 100 Islamists in Morocco this book enables readers to understand and appreciate the significance of dimuqr iyya as a concept alongside new prospects for Islam and democracy in the Arab Middle East and North Africa MENA Khanani s in depth analysis of the Moroccan case brings these Islamists and their attending political views to the forefront Art and Identity in Spain,

Bertuchi who dedicated their lives to Morocco and the Moroccan Sarghini who participated in the state funded Painters of Africa exhibitions in Franco s Madrid an annual exhibition that served the colonial concept of a Hispano Moroccan brotherhood under the dictatorship This book traces the shifting impulses and meanings of Orientalist expression in Spain It makes an original intervention in the field of Spanish art studies and contributes new material to the ongoing debates about Western Orientalism
