Fieldwork Under Fire Carolyn Nordstrom, Antonius C. G. M. Robben, 1995 Required reading for anyone about to leave for the field A timely deserving and original contribution to a rapidly growing body of literature on the study of violence Jean Paul Dumont George Mason University *The New Insurgencies* Michael Radu, 2017-09-29 The appearance of ideologically motivated anti communist insurgent groups in the Third World is an important new phenomenon that has received little serious attention Analysis has focused on American attitudes while the indigenous roots and motivations of such groups have remained largely unexplored Michael Radu fills in the gap in *The New Insurgencies* with case studies and contributions from Anthony Arnold Paul Henze Justus van de Kroef and Jack Wheeler As the authors show more often than not Third World anti communist insurgencies express a general rejection of values and ideologies from outsiders Many of these insurgencies reflect violent opposition to regimes installed by the Soviets during the 1970s yet they only rarely articulate a struggle for liberal democracy Nationalism religion or the preservation of traditional political and economic patterns are more often the true motivations And while insurgents often apply military and occasionally political methods used by successful Marxist Leninist insurgencies of this century they tend to be rural based and close to the aspirations of the peasant masses rather than directed by the educated and urbanized elites *The New Insurgencies* includes case studies of major anti communist movements today including those in Afghanistan Cambodia Ethiopia Mozambique Angola and Nicaragua It shows that in each the role of local powers such as South Africa Thailand and Pakistan rather than direct U S support has been critical to the insurgents effectiveness In part this may be because the old bipartisan Washington consensus based on anti communism has evaporated and Radu explores why this has occurred Regardless of Washington s support the new insurgencies are likely to persist Their impact on U S Soviet and world policy will be profound *The New Insurgencies* combines extensive use of firsthand data including personal knowledge of some of the major personalities involved with extensive bibliogra Ending Africa's Wars Roy May, 2016-04-29 Post colonial Africa has seemingly been in an intractable state of conflict and war for a considerable period of time This volume explores the process by which these wars were ended discusses the lessons learnt and examines the sustainability of recently reconciled conflicts to see how far peace solutions are permanent in this region *Ending Africa s Wars* is an important and timely book for all those interested in conflict democracy international organizations civil society refugees gender and the economic reconstruction of Africa **The Agrarian Question in Socialist Transitions** Ashwani Saith, 2013-10-28 First published in 1986 This collection of eight essays begins with a piece that constructs a preliminary argument concerning the position of the peasantry in the twin transitions the first to industrialisation and the second towards socialism In the poor developing country launching upon both simultaneously the agrarian question bifurcates into two dichotomous sets of issues *Negotiating Statehood* Tobias Hagmann, Didier

Péclard,2011-10-04 *Negotiating Statehood Dynamics of Power and Domination in Africa* provides a conceptual framework for analysing dynamic processes of state making in Africa Features a conceptual framework which provides a method for analysing the everyday making contestation and negotiation of statehood in contemporary Africa Conceptualizes who negotiates statehood the actors resources and repertoires where these negotiation processes take place and what these processes are all about ncludes a collections of essays that provides empirical and analytical insights into these processes in eight different country studies in Africa Critically reflects on the negotiability of statehood in Africa *Routledge Handbook of International Statebuilding* David Chandler,Timothy D. Sisk,2013-09-02 This new Handbook offers a combination of theoretical thematic and empirical analyses of the statebuilding regime written by leading international scholars Over the past decade international statebuilding has become one of the most important and least understood areas of international policy making Today there are around one billion people living in some 50 60 conflict affected fragile states vulnerable to political violence and civil war The international community grapples with the core challenges and dilemmas of using outside force aid and persuasion to build states in the wake of conflict and to prevent such countries from lapsing into devastating violence The Routledge Handbook of International Statebuilding is a comprehensive resource for this emerging area in International Relations The volume is designed to guide the reader through the background and development of international statebuilding as a policy area as well as exploring in depth significant issues such as security development democracy and human rights Divided into three main parts this Handbook provides a single source overview of the key topics in international statebuilding Part One Concepts and Approaches Part Two Security Development and Democracy Part Three Policy Implementation This Handbook will be essential reading for students of statebuilding humanitarian intervention peacebuilding development war and conflict studies and IR Security Studies in general *Out from Underdevelopment* James H. Mittelman,1988-07-08 [A History of Africa](#) John Fage,with William Tordoff,2013-10-23 A History of Africa is a thorough narrative history of the continent from its beginnings to the twenty first century Long established at the forefront of African Studies this book addresses the events of the 1990s and beyond The issues discussed include post apartheid South Africa the prospects for democratization in Africa at the beginning of the new millennium developments in Muslim North Africa including the threat of Islamic fundamentalism economic and social developments including the devastating impact of Third World debt and the provision of debt relief cultural environmental and gender issues in Modern Africa **After the Guns Fall Silent** Shawn Roberts,Jody Williams,1995-01-01 Years after peace treaties have been signed and military conflict is nominally over anti personnel mines continue to claim innocent lives This text offers data showing that landmines victimize civilians in direct contravention of the Geneva convention and examines the impact landmines have on people on their communities and on their outlook and view of life The report commissioned by the VVAF examines the consequences of landmine use on post conflict reconstruction and development on refugee movement and resettlement and on the

environment It also investigates mine clearance and mine awareness and medical rehabilitative and psychological costs Using original research the report uses case studies from countries including Angola Mozambique Cambodia and the former Yugoslavia Scholarly and accurate analysis combines with people s own words and real personal stories to present a detailed evaluation of the effect of this most potent of weapons This work is published by the Vietnam Veterans of America Foundation and distributed in the UK and Ireland by Oxfam
