*A Theory of Citizen Equality* Ray C. Minor, 2024-08-08 A Theory of Citizen Equality A Framework for Democratic Citizenship advances a theory of citizen equality that provides a roadmap for leveling the playing field Citizen Equality Model is a broad theoretical approach for establishing justice and equality in a political environment The theory prioritizes economic political religious and social domains There are ten total domains with the other six being biological physiological psychological legal educational and leisure If these domains are optimized then a person has a chance for equality and the benefits of social and economic advantages It also lists and prescribes thirteen limitations on equality The theory approaches equality from the viewpoint of citizen as a whole person In this sense a citizen is met at their status and assessed to determine requirements for elevation to full equality The goal is to place citizens in the best position to maximize their ability to attain equality

**Voices of Zimbabwean Orphans** Manasa Dzirikure, Garth Allen, 2014-10-30 The voices of orphans and other vulnerable children and young people and of their carers and professional development workers are documented and analysed to both criticise the inadequacies of current social development work and to create a new alternative theory and practice of project management in Zimbabwe and southern Africa This is the first extensive and intensive empirical study of Zimbabwean orphans and other vulnerable children and young people Chronically poor children and their carers can be corrupted or silenced by management systems which fail to recognise their basic human needs Resilience in the face of such adversity is celebrated by

the dominant project management ideology and practice but is a major barrier to achieve genuine sustainable improvements in the lives of vulnerable children We propose a new person centred project management approach aimed at delivering comprehensive services for orphans which explicitly recognises the needs of orphans and other poor children to be fully socially politically and economically included within their communities and which avoids the reinforcement of power based inequalities and their unacceptable consequences The moral bankruptcy of much social development work in Zimbabwe and elsewhere in Southern Africa is described and we delineate an alternative project management policy and practice
