Uniting Germany Pekka Kalevi Hamalainen, 2019-03-18 This is an account of the dramatic events leading to the reunification of Germany The author looks into the complex intertwining of popular action national politics and international moves that culminated in the historic events of 1989 After providing a brief historical background the author analyzes the sequence of events in East Germany the interplay between East German discontent and Bonn's policies and Chancellor Kohl's role in mobilizing domestic and international support for reunification Paying special attention to the attitudes and actions of other powers particularly Russia the author provides a detailed look at the decisive negotiations with Gorbachev that cleared the way for German reunification The book combines action on the streets with cabinet politics and the challenge of balancing domestic priorities with international concerns

The German Melting Pot W. Zank, 1998-08-10 From medieval times until today Germany has been a cocktail of very different peoples and cultural groups The components of the cocktail have changed but not Germany's character as such The many cultural divides have often led to conflict once even to genocide but surprisingly often cooperation or at least peaceful coexistence has been the characteristic feature Against the background of a graphic historical survey the author analyzes the factors which have made cooperation possible or conversely have produced conflicts

Classical Rhetoric and the German Poet Anna Carrdus, 2017-12-02 This study relates theory to the details of poetic practice it presents Opitz Burger and Aichendorff as representatives of their times and demonstrates how they adapt the classical arts to their particular talents and beliefs All three poets are shown at work within a tradition flexible enough to persist even into the present The author shows how the influence of rhetoric on German poetry did not vanish in the mid 18th century as is widely supposed The first chapter briefly compares theoretical statements by Martin Opitz and the 20th century poet Peter Rühmkorf it uses the comparison to introduce two main arguments that classical rhetoric and poetics exert a persistent though constantly changing influence on the composition of German poetry and that the theoretical precepts and natural talent are mutually interdependent These arguments are developed through the examination of works by three German poets taken from periods of major literary change Opitz is representative of the Baroque Burger of the Sturm und Drang and Aichendorff of Romanticism Three main chapters reconstruct the working method of each poet applying his own theory and that of near contemporaries to detailed analysis of one of two of his poems This procedure illustrates how each poet adapts rhetorical and poetic traditions to his own personal talent and to the literary preoccupations of his time
