Redrawing Nations Ethnic Cleansing In East Central Europe 1944 1948:

Redrawing Nations Philipp Ther, Ana Siljak, 2001 After World War II some 12 million Germans 3 million Poles and Ukrainians and tens of thousands of Hungarians were expelled from their homes and forced to migrate to their supposed countries of origin Using freshly available materials from Polish Ukrainian Russian Czechoslovak German British and American archives the contributors to this book provide a sweeping detailed account of the turmoil caused by the huge wave of forced migration during the nascent Cold War The book also documents the deep and lasting political social and economic consequences of this traumatic time raising difficult questions about the effect of forced migration on postwar reconstruction the rise of Communism and the growing tensions between Western Europe and the Eastern bloc Those interested in European Cold War history will find this book indispensable for understanding the profound but hitherto little known upheavals caused by the massive ethnic cleansing that took place from 1944 to 1948

The Carpathians Patrice M. Dabrowski, 2021-10-15 In The Carpathians Patrice M. Dabrowski narrates how three highland ranges of the mountain system found in present day Poland Slovakia and Ukraine were discovered for a broader regional public This is a story of how the Tatras Eastern Carpathians and Bieszczady Mountains went from being terra incognita to becoming the popular tourist destinations they are today It is a story of the encounter of Polish and Ukrainian lowlanders with the wild sublime highlands and with the indigenous highlanders Goral Hutsuls Boikos and Lemkos and how these peoples were incorporated into a national narrative as the territories were transformed into a native national landscape The set of microhistories in this book occur from about 1860 to 1980 a time in which nations and states concerned themselves with the frontier at the edge Discoverers not only became enthralled with

what were perceived as their own highlands but also availed themselves of the mountains as places to work out answers to the burning questions of the day Each discovery led to a surge in mountain tourism and interest in the mountains and their indigenous highlanders Although these mountains essentially a continuation of the Alps are Central and Eastern Europe s most prominent physical feature politically they are peripheral The Carpathians is the first book to deal with the northern slopes in such a way showing how these discoveries had a direct impact on the various nation building state building and modernization projects Dabrowski s history incorporates a unique blend of environmental history borderlands studies and the history of tourism and leisure

Women's Narratives and the Postmemory of Displacement in Central and Eastern Europe Simona Mitroiu, 2018-10-15 This volume explores the different mechanisms and forms of expression used by women to come to terms with the past focusing on the variety and complexity of women s narratives of displacement within the context of Central and Eastern Europe The first part addresses the quest for personal post memory from the perspective of the second and third generations The touching collaboration established in reconstructing individual and family post memories offers invaluable insights into the effects of displacement coping mechanisms and resilience Adopting the idea that the text itself becomes a site of post memory the second part of the volume brings into discussion different sites and develops further this topic in relation to the creative process and visual text The last part questions the past in relation to trauma and identity displacement in the countries where abusive regimes destroyed social bonds and had a lasting impact on the people lives

Population Displacement in Lithuania in the Twentieth Century Tomas Balkelis, Violeta Davoliūtė, 2016-05-09 Population Displacement in Lithuania in the XXth Century Experiences Identities and Legacies is an edited volume written by historians from several countries offering a series of ground breaking case studies on forced migration in Lithuania during and between the two World Wars Starting with the premise that the mass movement of peoples during and after the Second World War needs to be understood in relation to the

population displacement of the First World War the authors draw on theoretical perspectives ranging from entangled histories cultural theory and studies of nationalism to trace the ethnic social and cultural transformation of Lithuanian society caused by the displacement of Lithuanians Poles Jews and Germans Contributors are Tomas Balkelis Daiva Dapkut Violeta Davoli t Andrea Griffante Ruth Leiserowitz Klaus Richter Vasilijus Safronovas Vitalija Stravinskien Ar nas Streikus and Theodore R Weeks

The Lost German East Andrew Demshuk,2012-04-30 A fifth of West Germany's post 1945 population consisted of ethnic German refugees expelled from Eastern Europe a quarter of whom came from Silesia As the richest territory lost inside Germany's interwar borders Silesia was a leading objective for territorial revisionists many of whom were themselves expellees The Lost German East examines how and why millions of Silesian expellees came to terms with the loss of their homeland Applying theories of memory and nostalgia as well as recent studies on ethnic cleansing Andrew Demshuk shows how over time most expellees came to recognize that the idealized world they mourned no longer existed Revising the traditional view that most of those expelled sought a restoration of prewar borders so they could return to the east Demshuk offers a new answer to the question of why after decades of violent upheaval peace and stability took root in West Germany during the tense early years of the Cold War

Orderly and Humane R. M. Douglas,2012-06-26 The award winning history of 12 million German speaking civilians in Europe who were driven from their homes after WWII a major achievement New Republic Immediately after the Second World War the victorious Allies authorized the forced relocation of ethnic Germans from their homes across central and southern Europe to Germany The numbers were almost unimaginable between 12 and 14 million civilians most of them women and children And the losses were horrifying at least five hundred thousand people and perhaps many more died while detained in former concentration camps locked in trains or after arriving in Germany malnourished and homeless In this authoritative and objective account historian R M Douglas examines an aspect of European history that few have wished to confront exploring how the forced migrations were conceived planned and executed and how their legacy reverberates throughout central Europe today The first comprehensive history of this immense manmade catastrophe *Orderly and Humane* is an important study of the largest recorded episode of what we now call ethnic cleansing It may also be the most significant untold story of the World War II

[The Unsettling of Europe](#) Peter Gatrell,2019-08-27 An acclaimed historian examines postwar migration's fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time and it has completely decentered European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the center of post war European history and the aspirations of migrants themselves at the center of the story of

migration This is an urgent history that will reshape our understanding of modern Europe

Khrushchev's Thaw and National Identity in Soviet Azerbaijan, 1954-1959 Jamil Hasanli, 2014-12-18 On February 25 1956 Soviet leader Nikita S Khrushchev delivered the so called secret speech in the Twentieth Party Congress of the CPSU in which he denounced Stalin's transgressions and the cult of personality around the deceased dictator Replete with sharp criticism of the Terror of the late 1930s the unpreparedness of the USSR for the Nazi invasion numerous wartime blunders and the deportation of various nationalities the speech reverberated throughout the subordinate Soviet republics For republics such as Azerbaijan the speech was an unmistakable signal to readjust the entire political orientation and figure out ways to redefine governance in post Stalin era Previously frozen under the mortal threat of Stalinist persecution various forms of national self expression began to experience rapid revival under the Khrushchev thaw Encouraged by the winds of change at the Center the Azeris cautiously began to reclaim possession of their administrative domain Among other local initiatives the declaration of the Azerbaijani language as the official language was one step that stood out in its audacity for it was not pre arranged with the Kremlin and defied the modus operandi of the Soviet leadership Somewhat reformist in his intentions yet ignorant of the non Slavic peripheries Mr Khrushchev had not foreseen the scenarios that would unfold as a result of its new tone and the developments that would come to be interpreted as the rise of nationalism in the republics Jamil Hasanli's research on 1950s Azerbaijan sheds light on this watershed period in Soviet history while also furnishing the reader with a greater understanding of the root causes of the dissolution of the USSR

The Legacy of the Cold War Vojtech Mastny, Zhu Liqun, 2013-12-16 The unexpected end of the protracted conflict has been a sobering experience for scholars No theory had anticipated how the Cold War would be terminated and none should also be relied upon to explicate its legacy But instead of relying on preconceived formulas to project past developments taking a historical perspective to explain their causes and consequences allows one to better understand trends and their long term significance The present book takes such perspective focusing on the evolution of security its substance as well as its perception the concurrent development of alliances and other cooperative structures for security and their effectiveness in managing conflicts In *The Legacy of the Cold War* Vojtech Mastny and Zhu Liqun bring together scholars to examine the worldwide effects of the Cold War on international security Focusing on regions where the Cold War made the most enduring impact the Euro Atlantic area and East Asia historians political scientists and international relations scholars explore alliances and other security measures during the Cold War and how they carry over into the twenty first century

[The Vienna Summit and Its Importance in International History](#) Günter Bischof, Stefan Karner, Barbara Stelzl-Marx, 2013-12-19 At the beginning of June 1961 the tensions of the Cold War were supposed to abate as both sides sought a resolution The two most important men in the world John F Kennedy and Nikita Khrushchev met for a summit in Vienna Yet the high hopes were disappointed Within months the Cold War had become very hot Khrushchev built the Berlin Wall and a year later he sent missiles to Cuba to threaten the

United States directly. Despite the fact that the Vienna Summit yielded barely any tangible results it did lead to some very important developments. The superpowers came to see for the first time that there was only one way to escape from the atomic hell of their respective arsenals: dialogue. The peace through fear and the hotline between Washington and Moscow prevented an atomic confrontation. Austria successfully demonstrated its new role as neutral state and host when Vienna became a meeting place in the Cold War. In The Vienna Summit and Its Importance in International History, international experts use new Russian and Western sources to analyze what really happened during this critical time and why the parties had a close shave with catastrophe.

The Shadow of Colonialism on Europe's Modern Past R. Healy, E. Dal Lago, Enrico Dal Lago, 2014-10-28 Through a range of case studies from eastern and western Europe this book breaks new ground in investigating the extent to which European peoples living within Europe were also subjected to the ideologies and practices of colonialism.

Total Wars and the Making of Modern Ukraine, 1914-1954 George Liber, 2016-05-09 Between 1914 and 1954 the Ukrainian speaking territories in East Central Europe suffered almost 15 million excess deaths as well as numerous large scale evacuations and forced population transfers. These losses were the devastating consequences of the two world wars, revolutions, famines, genocidal campaigns and purges that wracked Europe in the first half of the twentieth century and spread new ideas, created new political and economic systems and crafted new identities. In *Total Wars and the Making of Modern Ukraine 1914-1954* George O. Liber argues that the continuous violence of the world wars and interwar years transformed the Ukrainian speaking population of East Central Europe into self-conscious Ukrainians. Wars, mass killings and forced modernization drives made and re-made Ukraine's boundaries, institutionalized its national identities and pruned its population according to various state-sponsored political, racial and social ideologies. In short, the two world wars, the Holodomor and the Holocaust played critical roles in forming today's Ukraine. A landmark study of the terrifying scope and paradoxical consequences of mass violence in Europe's bloodlands, Liber's book will transform our understanding of the entangled histories of Ukraine, the USSR, Germany and East Central Europe in the twentieth century.

Stalinist Terror in Eastern Europe Kevin McDermott, Matthew Stibbe, 2024-06-04 This wide-ranging collection of essays, newly available in paperback, is the first book in English to examine the impact of Stalinist terror on Eastern Europe in the years 1940 to 1956. Covering the Baltic states, Moldavia, East Germany, Poland, Czechoslovakia, Hungary, Romania, Yugoslavia, Bulgaria and Albania, the authors investigate terror both from above, in the form of elite purges and show trials, and from below, in the guise of large-scale arrests and deportations of ordinary people. Key questions addressed include the relative importance of Soviet influence versus local factors, the persecution of particular groups such as kulaks, church leaders, the middle class, intelligentsia and members of non-communist left-wing parties, cases where repression was more or conversely less intense than elsewhere, and the relevance of key events such as the Tito-Stalin split of 1948, the Rajk trial of 1949 and the Slansk trial of 1952.

Jewish Property After 1945 Jacob Ari Labendz, 2018-10-18 Questions arose after 1945 and have persisted about the ownership of

properties which had belonged to Jewish communities before the Second World War to Holocaust victims and survivors and to Jewish expellees from the Middle East and North Africa Studies of these properties have often focused on their symbolic values their places in cultures of memory and identity construction and measures of justice achieved or denied This collection explores contesting conceptions of ownership and property claims advanced in the post war years The authors focus considerably upon how conflicts over these properties both shaped and reflected shifting and competing ideas about Jewish belonging They show their outcomes to have had considerable consequences for the lived experiences of both Jews and non Jews around the world This is because the properties in questions always maintained their worth as material assets just as they could also impart financial liabilities and other responsibilities to their stewards regardless of the morality of their title The unique decision to include studies of European Middle Eastern and North African communities into one volume represents an attempt to achieve a more globally sensitive language for thinking about these histories especially at their points of contact and mutual reference This book was originally published as a special issue of Jewish Culture and History

Shatterzone of Empires Larry Wolfe,Gregor Thum,Dan Diner,Theodore R. Weeks,Gary B. Cohen,Pieter M. Judson,Frithjof Benjamin Schenk,Elke Hartmann,Patrice M. Tangible Belonging John C. Swanson,2017-04-19 Tangible Belonging presents a compelling historical and ethnographic study of the German speakers in Hungary from the late nineteenth to the late twentieth century Through this tumultuous period in European history the Hungarian German leadership tried to organize German speaking villagers Hungary tried to integrate and later expel them and Germany courted them The German speakers themselves however kept negotiating and renegotiating their own idiosyncratic sense of what it meant to be German John C Swanson s work looks deeply into the enduring sense of tangible belonging that characterized Germanness from the perspective of rural dwellers as well as the

broader phenomenon of minority making in twentieth century Europe The chapters reveal the experiences of Hungarian Germans through the First World War and the subsequent dissolution of Austria Hungary the treatment of the German minority in the newly independent Hungarian Kingdom the rise of the racial Volksdeutsche movement and Nazi influence before and during the Second World War the immediate aftermath of the war and the expulsions the suppression of German identity in Hungary during the Cold War and the fall of Communism and reinstatement of minority rights in 1993 Throughout Swanson offers colorful oral histories from residents of the rural Swabian villages to supplement his extensive archival research As he shows the definition of being a German in Hungary varies over time and according to individual interpretation and does not delineate a single national identity What it meant to be German was continually in flux In Swanson s broader perspective defining German identity is ultimately a complex act of cognition reinforced by the tangible environment of objects activities and beings As such it endures in individual and collective mentalities despite the vicissitudes of time history language and politics

The Nation/State Fantasy Moran M. Mandelbaum, 2019-11-08 This book explores the origins of nationalism and the ideal of nation state congruency since early modern European thought their transformation over time and endurance in contemporary political thought and IR theory The author deploys a Lacanian psychoanalytical reading of nationalism and the nation state that goes beyond methodological nationalism and state centrism critiques He offers a genealogical inquiry into the emergence of the nation state congruency ideal thus exposing and problematising the practices that render nationalism and the ideal of the nation state necessary Offering a new way to read the ontology and epistemology of the nation state this work will be of interest to students and scholars of nations and nationalism political thought critical international relations and critical security studies
