Reflections And Perspectives Essays In Philosophy

M. A. Stewart

Reflections And Perspectives Essays In Philosophy:

Reflections and perspectives Elmer Daniel Klemke, 2019-01-29 No detailed description available for Reflections and perspectives □□□□□□□□□□□□, 1994 Reflections and Perspectives E. D. Klemke, 1974-11 **Rationality and Reflection** Jonathan L. Kvanvig, 2014 This book sets out a theory of rationality a theory about how to determine what to think which defends a significant degree of optionality in the story of what is reasonable for people to think and thereby provides a framework for explaining what kinds of rational disagreement are possible Publisher's description *Feminist Reflections on the History of Philosophy* Lilli Alanen, Charlotte Witt, 2006-01-17 Feminist work in the history of philosophy has come of age as an innovative field in the history of philosophy This volume marks that accomplishment with original essays by leading feminist scholars who ask basic questions What is distinctive of feminist work in the history of philosophy Is there a method that is distinctive of feminist historical work How can women philosophers be meaningfully included in the history of the discipline Who counts as a philosopher This collection is a unique collaboration among philosophers from North America and the Nordic Countries including papers written from both analytic and continental philosophical perspectives and discussing both ancient and modern philosophers *Feminist Reflections on the History of Philosophy* will be of interest to historians of philosophy feminist theorists women's studies faculty and students and humanists interested in canon formation and transformation **Wilfrid Sellars** Willem deVries, 2005-11-28 Wilfrid Sellars 1912-1989 has been called the most profound and systematic epistemological thinker of the twentieth century Many of his ideas have become widely acknowledged including his attack on the myth of the given his functionalist treatment of intentional states his proposal that psychological concepts are like theoretical concepts and his suggestion that attributions of knowledge locate the knower in the logical space of reasons Notoriously difficult to understand Sellars essays are not only complex but were never situated within a unified exposition of his thought Willem deVries addresses these difficulties and provides a careful reading and remarkable overview of Sellars systematic philosophy This clear comprehensive and authoritative work will become the standard point of reference for all philosophers seeking to understand Sellars's hugely significant body of work **Reflections and Replies** Tyler Burge, 2003 Essays by various philosophers on the work of Tyler Burge and Burge's extensive responses **Tourism and Culture in Philosophical Perspective** Marie-Élise Zovko, John Dillon, 2023-11-10 This book offers a philosophical approach to tourism as a permanent factor in the lifestyle economy and culture of the contemporary global community Travel to well known destinations and pursuit of an ever increasing range of leisure activities are an aspiration of most humans today Those not themselves engaged in tourist activities are quite often involved in providing the goods and services which make tourism possible Yet the ill effects of mass tourism and overtourism on sensitive ecosystems resources and community life have begun to outweigh economic gains threatening to destroy destinations cultural heritage and livelihoods The editors and contributors of this collection reflect on the nature and meaning of tourism its history elements and forms the roles of

tourist and host the limits of hospitality tendencies to excess and the reasons why we engage in such forms of behaviour and the place of tourism in human culture as a whole By shedding light on these questions more efficacious solutions to the urgent problems raised by the practice of tourism can be found This work is a must read for scholars teachers and students engaged in study and research on philosophy of culture philosophical anthropology tourist and destination management human factors engineering and sustainability Fictional Worlds and Philosophical Reflection Garry Hagberg, 2022-01-31 This edited collection investigates the kinds of philosophical reflection we can undertake in the imaginative worlds of literature Opening with a look into the relations between philosophical thought and literary interpretation the volume proceeds through absorbing discussions of the ways we can see life through the lens of literature the relations between philosophical saying and literary showing and some ways we can see the literary past philosophically and assess its significance for the present Taken as a whole the volume shows how imagined contexts can be a source of knowledge a source of conceptual clarification and a source of insight and understanding And because philosophical thinking is undertaken after all in words a heightened sensitivity to the precise employments of our words particularly philosophically central words such as truth reality perception knowledge selfhood illusion understanding falsehood can bring a clarity and a refreshed sense of the life that our words take on in fully described contexts of usage And in these imagined contexts we can also see more acutely and deeply into the meaning of words about words metaphor and figurative tropes verbal coherence intelligibility implication sense and indeed the word meaning itself Moving from a philosophical issue into a literary world in which the central concepts of that issue are in play can thus enrich our comprehension of those concepts and in the strongest cases substantively change the way we see them With a combination of conceptual acuity and literary sensitivity this volume maps out some of the territory that philosophical reflection and literary engagement share Hume's Philosophy in Historical Perspective M. A. Stewart, 2022-11-03 David Hume was a highly original thinker Nevertheless he was a writer of his time and place in the history of philosophy In this book M A Stewart puts Hume's writing in context particularly that of his native Scotland but also that of British and European philosophy more generally Through meticulous research Stewart brings to life the circumstances by means of which we can get a deeper understanding of Hume's writings on the nature and reach of human reason the foundation of morals and especially on the philosophy of religion Stewart pays particular attention to Hume's intellectual development beginning with his education at the College of Edinburgh the writing of his Treatise of Human Nature and his subsequent philosophical responses to criticisms of that book He argues that Hume's scepticism set him at odds with the Christian Stoicism of Scottish contemporaries including that of Francis Hutcheson and shows that this conflict played a major role in his failure to obtain the Edinburgh Moral Philosophy Chair in 1745 Stewart's detailed study of the physical character of Hume's surviving manuscripts in Chapters 8 and 9 provides the best available dating of his early Essay on Modern Chivalry his Early Fragment on Evil and the periods of composition of his Dialogues Concerning Natural

Religion Other chapters compare Hume's theory of abstraction with that of Locke and Berkeley provide the 17th and 18th century philosophical context of the central argument of his essay Of miracles and consider the 18th and 19th century reception of his writings in England and Ireland Philosophy and Engineering: Reflections on Practice, Principles and Process Diane P Michelfelder, Natasha McCarthy, David E. Goldberg, 2014-01-13 Building on the breakthrough text Philosophy and Engineering An Emerging Agenda this book offers 30 chapters covering conceptual and substantive developments in the philosophy of engineering along with a series of critical reflections by engineering practitioners The volume demonstrates how reflective engineering can contribute to a better understanding of engineering identity and explores how integrating engineering and philosophy could lead to innovation in engineering methods design and education The volume is divided into reflections on practice principles and process each of which challenges prevalent assumptions and commitments within engineering and philosophy The volume explores the ontological and epistemological dimensions of engineering and exposes the falsity of the commonly held belief that the field is simply the application of science knowledge to problem solving Above all the perspectives collected here demonstrate the value of a constructive dialogue between engineering and philosophy and show how collaboration between the disciplines casts light on longstanding problems from both sides The chapters in this volume are from a diverse and international body of authors including philosophers and engineers and represent a highly select group of papers originally presented in three different conferences These are the 2008 Workshop on Philosophy and Engineering WPE 2008 held at the Royal Academy of Engineering the 2009 meeting of the Society for Philosophy and Technology SPT 2009 at the University of Twente in the Netherlands and the Forum on Philosophy Engineering and Technology fPET 2010 held in Golden Colorado at the Colorado School of Mines *Wilfrid Sellars* Willem A.

DeVries, 2014-12-18 Wilfrid Sellars 1912-89 has been called the most profound and systematic epistemological thinker of the twentieth century Robert Brandom He was in many respects ahead of his time and many of his innovations have become widely acknowledged for example his attack on the myth of the given his functionalist treatment of intentional states his proposal that psychological concepts are like theoretical concepts and his suggestion that attributions of knowledge locate the knower in the logical space of reasons However while many philosophers have begun to acknowledge Sellars's inspiration in their work their interpretation of his thought has not always been the most accurate His writings are difficult Individually his essays are complex and sometimes rely on doctrines and arguments he put forward elsewhere Each of his articles is deepened and strengthened by seeing it in its systematic context but he never wrote a unified exposition of his system which therefore has to be pieced together from numerous disparate sources Willem deVries addresses these difficulties specifically and provides a careful reading and remarkable overview of Sellars's systematic philosophy that will become the standard point of reference for all philosophers seeking to understand Sellars's hugely significant body of work

The Philosophical Reflection of Man in Literature Anna-Teresa Tymieniecka, 2012-12-06 Reason, Truth, and Theology

in Pragmatist Perspective Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher's pragmatic idealism is presented as healing the ills in Rorty's own neo pragmatism The significant resonance between Rescher's view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon's influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God's being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King's College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert's Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph

Theological Reflection: Methods, 2nd Edition Elaine Graham, Heather Walton, Frances Ward, 2019-02-27 Theological Reflections Methods offers a comprehensive collection of models of theological reflection By bringing this diverse collection together in one place the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format Throughout each chapter the distinguishing features of the model are examined the genealogy and origins are discussed worked examples of the model applied to contemporary theology are provided and critical commentary future trends and exercises and questions are provided Now firmly established as an essential text on theological reflection this new edition has been revised and updated with a new introduction updated examples and refreshed bibliographies

Reflections on Naturalism José Ignacio Galparsoro, Alberto Cordero, 2013-09-04 To naturalists there is no such thing as complete justification for any claim and so requiring complete warrant for naturalist proposals is an unreasonable request

The proper guideline for naturalist proposals seems thus clear develop it using the methods of science if this leads to a fruitful stance then explicate and reassess The resulting offer will exhibit virtuous circularity if its explanatory feedback loop involves critical reassessment as the explanations it encompasses play out So viewed naturalism is a philosophical perspective that seeks to unite in a virtuous circle the natural sciences and non foundationalist broadly based empiricism Other common lines of antinaturalist complaint are that naturalization efforts seem fruitful only in some areas also that several endeavors outside the sciences serve as sources of knowledge into human life and the human condition especially in areas where science does not reach terribly far as yet It seems hard not to grant some truth to many allegories from literature art and some religions Naturalism has room for knowledge gathered outside science provided the imported claims satisfy also by naturalistic methods Naturalism and the debate about its scope and limits thrive on discrepancy We hope that collectively the selected essays that follow will give a fair view of the vitality and tribulations of naturalism as a variegated contemporary philosophical perspective

The Philosopher's Index: Subject index, 1980 **Philosophical Reflections on Disability** D. Christopher Ralston, Justin Ho, 2009-09-19 This project draws together the diverse strands of the debate regarding disability in a way never before combined in a single volume After providing a representative sampling of competing philosophical approaches to the conceptualization of disability as such the volume goes on to address such themes as the complex interplay between disability and quality of life questions of social justice as it relates to disability and the personal dimensions of the disability experience By explicitly locating the discussion of various applied ethical questions within the broader theoretical context of how disability is best conceptualized the volume seeks to bridge the gap between abstract philosophical musings about the nature of disease illness and disability found in much of the philosophy of medicine literature on the one hand and the comparatively concrete but less philosophical discourse frequently encountered in much of the disability studies literature It also critically examines various claims advanced by disability advocates as well as those of their critics In bringing together leading scholars in the fields of moral theory bioethics and disability studies this volume makes a unique contribution to the scholarly literature while also offering a valuable resource to instructors and students interested in a text that critically examines and assesses various approaches to some of the most vexing problems in contemporary social and political philosophy

A Mirror Is for Reflection Jake H. Davis, 2017-07-13 This volume offers a rich and accessible introduction to contemporary research on Buddhist ethical thought for interested students and scholars yet also offers chapters taking up more technical philosophical and textual topics *A Mirror is For Reflection* offers a snapshot of the present state of academic investigation into the nature of Buddhist Ethics including contributions from many of the leading figures in the academic study of Buddhist philosophy Over the past decade many scholars have come to think that the project of fitting Buddhist ethical thought into Western philosophical categories may be of limited utility and the focus of investigation has shifted in a number of new directions This volume includes contemporary perspectives on topics including

the nature of Buddhist ethics as a whole karma and rebirth mindfulness narrative intention free will politics anger and equanimity **Christian Reflection in Africa** Paul Bowers, 2018-07-05 This reference collection presents academic reviews of more than twelve hundred contemporary Africa related publications relevant for informed Christian reflection in and about Africa The collection is based on the review journal BookNotes for Africa a specialist resource dedicated to bringing to notice such publications and furnishing them with a one paragraph description and evaluation Now assembled here for the first time is the entire collection of reviews through the first thirty issues of the journal s history The core intention both of the journal and of this compilation is to encourage and to facilitate informed Christian reflection and engagement in Africa through a thoughtful encounter with the published intellectual life of the continent Reviews have been provided by a team of more than one hundred contributors drawn from throughout Africa and overseas The books and other media selected for review represent a broad cross section of interests and issues of personalities and interpretations including the secular as well as the religious The collection will be of special interest to academic scholars theological educators libraries ministry leaders and specialist researchers in Africa and throughout the world but will also engage any reader looking for a convenient resource relating to modern Africa and Christian presence there

Getting the books **Reflections And Perspectives Essays In Philosophy** now is not type of challenging means.
