**Radical Writing Center Praxis** Laura Greenfield, 2019-04-15 In *Radical Writing Center Praxis* Laura Greenfield calls for a paradigm change in writing centers imagining a field whose very reason for being is to facilitate justice and peace The book calls on readers to more critically examine power and agency in writing centers and to imagine new possibilities for the field's theories and practices Large intersecting systems of oppression manifest in the everyday practices of institutions classrooms and writing centers Local practices in turn influence the surrounding world *Radical Writing Center Praxis* therefore challenges the writing center field to resist assumptions of political neutrality and instead to redefine itself in terms of more explicit ethical commitments In this paradigm it is clear that to engage in anti oppression work is not merely

Radical Theology and Emerging Christianity

Katharine Sarah Moody, 2016-03-03

The theological turn in continental philosophy and the turn to Paul in political philosophy have occasioned a return to radical theology, a tradition whose philosophical heritage can be traced to the death of God announced in the work of Nietzsche and Hegel

John D. Caputo's deconstructive theology and Slavoj Žižek's materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian

Radical Theology and Emerging Christianity demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin, two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity

The author uses her analysis of all four figures to argue that deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate

Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification, the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice
