Reflections One Woman's Life 1917 To The New Millennium:

Reflections Diane L. Gender and the Politics of Welfare Reform Joanne L. Goodwin,2007-12-01 The first study to explore the origins of welfare in the context of local politics this book examines the first public welfare policy created specifically for mother only families Chicago initiated the largest mothers pension program in the United States in 1911 Evolving alongside movements for industrial justice and women s suffrage the mothers pension movement hoped to provide

justice for mothers and protection from life's insecurities. However, local politics and public finance derailed the policy and most women were required to earn. Widows were more likely to receive pensions than deserted women and unwed mothers. And African American mothers were routinely excluded because they were proven breadwinners yet did not compete with white men for jobs. Ultimately, the once uniform commitment to protect motherhood faltered on the criteria of individual support and wage earning became a major component of the policy. This revealing study shows how assumptions about women's roles have historically shaped public policy and sheds new light on the ongoing controversy of welfare reform.

New Zealand Through the Eyes of American Women Robyn Handel, 2009 New Zealand appeared relatively late on the general tourist map of the 19th century. Famous for its exotic flora and fauna, a visible native population, and women's suffrage, it also drew American tourists to its shores. How did American travelers perceive New Zealand and its society? Very few travel accounts by American women were published in this period, but these historical documents offer subjective accounts of the author's time and present individual experiences and views on New Zealand.

A Lab of One's Own Patricia Fara, 2018-01-05 2018 marked a double centenary: peace was declared in war-ravaged Europe and women won the vote after decades of struggle. *A Lab of One's Own* commemorates both anniversaries by revealing the untold lives of female scientists, doctors, and engineers who undertook endeavours normally reserved for men. It tells fascinating and extraordinary stories featuring initiative, determination, and isolation set against a backdrop of war, prejudice, and disease. Patricia Fara investigates the enterprising careers of these pioneering women and their impact on science, medicine, and the First World War. Suffrage campaigners aligned themselves with scientific and technological progress. Defying protests about their intellectual inferiority and child-bearing responsibilities during the War, they won support by mobilizing women to enter conventionally male domains. *A Lab of One's Own* focuses on the female experts who carried out vital research. They had already shown exceptional resilience by challenging accepted norms to pursue their careers; now they played their part in winning the War at home and overseas. In 1919, the suffragist Millicent Fawcett declared triumphantly that "The war revolutionised the industrial position of women. It found them serfs and left them free. She was wrong. Women had helped the country to victory; had won the vote for those over thirty, but had lost the battle for equality." *A Lab of One's Own* is essential reading to understand and eliminate the inequalities still affecting professional women today. *Australian national bibliography*, 1961

Women in the Classical World Elaine Fantham, Helene Peet Foley, Natalie Boymel Kampen, Sarah B. Pomeroy, H. A. Shapiro, 1995-03-30 Information about women is scattered throughout the fragmented mosaic of ancient history: the vivid poetry of Sappho survived antiquity on remnants of damaged papyrus; the inscription on a beautiful fourth-century B.C.E. grave praises the virtues of Mnesarete, an Athenian woman who died young; a great number of Roman wives were found guilty of poisoning their husbands, but was it accidental food poisoning or disease or something more sinister? Apart from the legends of Cleopatra, Dido, and Lucretia and images of graceful maidens dancing on urns, the evidence about

the lives of women of the classical world visual archaeological and written has remained uncollected and uninterpreted Now the lavishly illustrated and meticulously researched *Women in the Classical World* lifts the curtain on the women of ancient Greece and Rome exploring the lives of slaves and prostitutes Athenian housewives and Rome's imperial family The first book on classical women to give equal weight to written texts and artistic representations it brings together a great wealth of materials poetry vase painting legislation medical treatises architecture religious and funerary art women's ornaments historical epics political speeches even ancient coins to present women in the historical and cultural context of their time Written by leading experts in the fields of ancient history and art history women's studies and Greek and Roman literature the book's chronological arrangement allows the changing roles of women to unfold over a thousand year period beginning in the eighth century B C E Both the art and the literature highlight women's creativity sexuality and coming of age marriage and childrearing religious and public roles and other themes Fascinating chapters report on the wild behavior of Spartan and Etruscan women and the mythical Amazons the changing views of the female body presented in male authored gynecological treatises the new woman represented by the love poetry of the late Republic and Augustan Age and the traces of upper and lower class life in Pompeii miraculously preserved by the eruption of Mount Vesuvius in 79 C E Provocative and surprising *Women in the Classical World* is a masterly foray into the past and a definitive statement on the lives of women in ancient Greece and Rome
